Revised edition of author's Personal financial literacy, copyrighted 2010.

\* ?Is this the right book for me? The world of finance and accountancy can seem one of impenetrable mystery but it is one that many managers have to face in their day to day lives. With its comprehensive coverage of the subject, this book allows you not only to ask pertinent questions but also to understand the answers. Chapter by chapter, the workings of finance are mapped out and laid bare - the formal reports, the methods used to prepare the numbers and what accountants actually do every day. This edition is fully updated to reflect current allowances, rates and regulations and further information. It also includes even more questions (with comprehensive answers) to challenge the reader?s understanding. Finance for Non-Financial Managers includes: Chapter 1: The purpose of accounting Chapter 2: Basic terminology Chapter 3: Accounting concepts and principles Chapter 4: The profit and loss account Chapter 5: The balance sheet Chapter 6: The cash flow statement Chapter 7: Ratio analysis Chapter 8: Users of financial information Chapter 9: The general ledger Chapter 10: Costing Chapter 11: Standard costing Chapter 12: Variance analysis Chapter 13: Two more things on costing Chapter 14: The audit of annual accounts Chapter 15: Tricks of the trade Chapter 16: Financial information for managers Chapter 17: Capital investment appraisal: experts only! Chapter 18: Activities of an Accounts department Chapter 19: Cash flow management Chapter 20: Corporate financial planning Chapter 21: Personal finance: income tax and national insurance Chapter 22: Personal finance: investment Chapter 23: Personal finance: capital gains tax and others Learn effortlessly with a new easy-to-read page design and interactive features: Not got much time? This new book offers students a comprehensive and engaging treatment of personal finance, while incorporating unique themes, an application-driven pedagogy, and a definitive action plan. Unlike other texts on the market, it offers a frank and timely discussion of living within one's means and incorporating personal values and priorities into a personal financial plan. The intent is to help readers set priorities that guide their finances, rather than the other way around. This book establishes a path toward financial freedom that is less about accumulating wealth and more about building a future tailored to individual goals. With Walker/Walker, your future looks bright! Connect is the only integrated learning system that empowers students by continuously adapting to deliver precisely what they need, when they need it, and how they need it, so that your class time is more engaging and effective.

PERSONAL FINANCE 13E offers a practical, student-friendly introduction to personal financial management. Using a structured, step-by-step approach, this market-leading text helps students learn how to save and invest, manage student loans, file taxes, decrease credit card debt, and plan for the future. Real-life scenarios, covering a wide range of financial challenges, enable students to appreciate the relevance of key concepts, and useful advice from personal finance experts helps them apply those concepts in their own lives. Many math-based examples clearly illustrate the critical importance of achieving long-term financial goals through investing. Building on the success of previous editions, the new Thirteenth Edition continues to engage students and focus their attention on critical concepts they need to succeed in class and to manage their finances wisely for a lifetime. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

This fourth revised and updated edition gives a practical overview of contemporary finance from a New Zealand perspective. It helps students understand: how the financial system and the institutions within it operate; how and why financial decisions are made; the tools, techniques and concepts used in finance, and how they are applied to the major sectors of finance; and how individuals plan their short- and long-term financial activities; how business organisations manage and finance their short- and long-term financial activities. Broad in scope, Fundamentals of Finance explains the important financial decisions made by businesses and individuals, and how these decisions are influenced by the financial environment in which we live and work. It provides an introduction to finance that assists students to make their own financial decisions. Helpful features include: examples, self-test questions (with solutions!), learning objectives, a glossary of terms and useful formulae.

This lively and practical introduction to the mathematics of money invites us to take a fresh look at the numbers that underpin our financial decisions. Morton D. Davis talks about strategies to use when we are required to bet against the odds (purchasing auto insurance) or choose to bet against the odds (wagering in a casino or at the track). He considers the ways in which we can streamline and simplify the choices available to us in mortgages and other loans. And he helps us understand the real probabilities when we accept a tip on that "one in a thousand" stock, even when the tip comes from a successful day trader. With a wealth of entertaining and counterintuitive examples, The Math of Money delights as well as informs, and will help readers treat their financial resources more rationally.
