Il Mio Amore e la vostra fede, uniti, diventeranno la Spada della Salvezza, per mezzo della quale, le anime ingenuie che saranno facilmente ingannate dalla bestia, potranno essere salvate, e a quel punto il Regno sarà Mio. L'amore di sé comporta che, le religioni e le sette illuminanti cosiddette spirituali sollecitino l'avidità nei cuori degli uomini. L'auto-gratificazione non conduce a Dio, né alla Verità. In seguito, quelle povere anime che non credono in una vita dopo quella sulla Terra, vivono nell'infelicità, senza speranza nei loro cuori ...

During the years, however, which immediately followed Amiel's birth, some signs of decadence began to be visible in this brilliant Genevese society. The generation which had waited for, prepared, and controlled, the Restoration of 1814, was falling into the background, and the younger generation, with all its respectability, wanted energy, above all, wanted leaders. The revolutionary forces in the state, which had made themselves violently felt during the civil turmoils of the period preceding the assembly of the French States General, and had afterward produced the miniature Terror which forced Sismondi into exile, had been for awhile laid to sleep by the events of 1814. But the slumber was a short one at Geneva as elsewhere, and when Rossi quitted the republic for France in 1833, he did so with a mind full of misgivings as to the political future of the little state which had given him-an exile and a Catholic-so generous a welcome in 1819. The ideas of 1830 were shaking the fabric and disturbing the equilibrium of the Swiss Confederation as a whole, and of many of the cantons composing it.

n this mixture of the faith which clings and aspires, with the intellectual pliancy which allows the mind to sway freely under the pressure of life and experience, and the deep respect for truth, which will allow nothing to interfere between thought and its appointed tasks--that Amiel's special claim upon us lies. It is this balance of forces in him which makes him so widely representative of the modern mind--of its doubts, its convictions, its hopes. He speaks for the life of to-day as no other single voice has yet spoken for it; in his contradictions, his fears, his despairs, and yet in the constant straining toward the unseen and the ideal which gives a fundamental unity to his inner life, he is the type of a generation universally touched with doubt, and yet as sensitive to the need of faith as any that have gone before it; more widely conscious than its predecessors of the limitations of the human mind, and of the iron pressure of man's physical environment; but at the same time--paradox as it may seem--more conscious of man's greatness, more deeply thrilled by the spectacle of the nobility and beauty interwoven with the universe." -From the Introduction "Do not amend by reasoning, but by example; approach feeling by feeling; do not hope to excite love except by love

Little attention has been paid to Emma Jung's role in the history of analytical psychology and in the life of C. G. Jung. This extended biographical essay by Imelda Gaudissart, originally published in French, provides us with a carefully detailed view of this remarkable woman. Gaudissart's sensitive

depiction of Emma Jung reveals a very real woman confronted with an unexpected life and challenged to develop in ways that, for a wife and mother of that period, were almost unimaginable. She worked closely with her husband, C. G. Jung, and Sigmund Freud, becoming herself an analyst, and she was instrumental in establishing the earliest institutions for analytical psychology. The issues Emma Jung faced on her path to individuation will resonate with those of many women today. The importance of Emma Jung in the life of C. G. Jung has often been either taken for granted or underestimated, and her rightful place in the history of analytical psychology has rarely been given serious consideration. Imelda Gaudissart has managed to correct this imbalance and to provide us with a highly nuanced portrayal of this remarkable woman without falling into idealization or caricature. Any understanding of Jung is incomplete without an understanding of Emma's contribution. I highly recommend this book.

Tom Kelly, past president of the International Association for Analytical Psychology The psychodynamics of the relationships between Emma, Carl, Sabina, and Toni are fascinating, and Emma's composure and contributions under such difficult circumstances are miraculous. This is a story about the amazing varieties of love in this world always combined, sooner or later, with some sort of a pain but always stronger in the end. Beyond therapists and historians of psychology, this book serves all who want to grow, but who are sometimes frustrated by the trials of life. Emma's achievements have so much to teach us. John Cerullo, professor of history, University of New Hampshire at Manchester Imelda Gaudissart has the great merit of having molded the biographical material about Emma Jung-Rauschenbach into an interesting and moving essay. She helps to keep alive the memory of this remarkable, brave, and generous woman, my beloved grandmother. Jost Hoerni, one of Emma Jung's nineteen grandchildren Imelda Gaudissart has a master's in psychopathology and has been a Jungian analyst for more than thirty years. She is the coauthor, with her husband Pierre, of a new translation of the I Ching. Married and head of a large family, she lives in Tours, on the Loire Valley. Kathleen Llanwarne, English by birth, now lives in Brussels where she has worked as a translator for thirty years. Her interest in the work of C. G. Jung and in Jungian analysis dates back even further. "

A pictorial tour of Australia presenting drawings of its cities, animals, sports, beaches, aborigines, and the island of Tasmania.

Far away a battle rages and an entire city is turned to dust. Amelia can't sleep. She waits for news of her husband. He's a great general and this seems to be a decisive victory. But when the motives for the war start to look disturbingly personal, his wife becomes desperate to hold on to his love. Martin

Crimp's new play takes Sophocles' ancient story of marriage and violence - 'The Trachiniae' - and propels it into a modern world of political hypocrisy and emotional terrorism. Cruel and Tender was produced by Wiener Festwochen, Chichester Festival Theatre and the Young Vic, where it opened in London before premiering at the 2004 Vienna Festival.
