Maritime navigation has rapidly developed since the publication of the last edition of the title with methods of global position fixing for shipping becoming standardized. As in the previous two editions, this edition will provide a sound basis for the understanding of modern navigation systems and brings the student or professional up-to-date with the latest developments in technology and the growing standardization of maritime navigation techniques. Developed with close scrutiny from the US Merchant Marine Academy and the major maritime navigation centres in the UK, outdated techniques have been replaced by an expanded section on the now standard Navstar GPS systems and the Integrated Nav. In addition, a new chapter on the application of electronic charts will also be included, as well as problems at the end of each chapter with worked solutions.

Astonishingly relevant portraits of the lives of seven women

mystics Known to more than a million readers as the coauthor of the classic vegetarian cookbook *Laurel's Kitchen*, Carol Lee Flinders looks to the hunger of the spirit in *Enduring Grace*. In these striking and sustaining depictions of seven remarkable women, Flinders brings to life a chorus of wisdom from the past that speaks with remarkable relevance to our contemporary spiritual quests. From Clare of Assisi in the Middle East to Thérèse of Lisieux in the late nineteenth century, Flinders's compelling and refreshingly informal portraits reveal a common foundation of conviction, courage, and serenity in the lives of these great European Catholic mystics. Their distinctly female voices enrich their writings on the experience of the inner world, the nourishing role of friendship and community in our lives, and on finding our true work. At its heart, *Enduring Grace* is a living testament to how we can make peace with sorrow and disappointment and bring joy and transcendence into our lives.
