Ever been wronged by somebody you can't strike back at? Being hassled by an obnoxious bureaucrat who has the law on his side, for example? The books in this section will show you a multitude of ways that you can get even with anybody and remain anonymous. We must warn you these books are sold for entertainment purposes only! A complete guide to getting revenge through the mail. If you've had problems with people or organizations that seem too big to fight back against, this book is for you. Covers retaliation against individuals, corporations and even government agencies. Includes nearly 100 letters, along with tips on stationery, mailing, and how to keep from getting caught.

Mistrust in the 21st century is a major societal concern. This book: - explores social psychological processes that explain why and how mistrust develops - considers the effects that it has upon those who are mistrustful and those who are mistrusted - offers a model of mistrust in individuals and communities which is based on theories of identity and social representation. With examples ranging from the the 1872 US presidential election to the Trump era, it also considers Brexit, and has a significant focus on the Covid-19 pandemic. By looking at the role of social media, and how mistrust can be weaponised this book interrogates its place in our society. Ultimately, whilst feeling mistrust is part of being human this book warns that we ignore mistrust at our peril. Dame Glynis M. Breakwell is Professor Emeritus at the University of Bath in the Department of Psychology and has Visiting Professorships at Imperial College, London, University of Surrey and Nottingham Trent University.

How to get the best of shoddy shops, crooked car-dealerships, and heartless HMOs--without having to hire an attorney. The Miss Manners of the consumer kvetch shows readers how to go postal, with complaint letters designed to melt the heart and sting the conscience of the most obdurate, negligent, or customer-hostile corporations. Drawing on her experience as a pen-for-hire for irate consumers--and on the advice of clients, attorneys, and CEOs--Ellen Phillips shows readers: - Who to write to, what to say, what to ask for - The names and addresses of over 600 major companies - How to draft personal petitions covering everything from tenant-landlord disputes to workman's compensation - Suggestions on what steps to take to avoid litigation - Consumer Smarts for automobile buyers - How to protect yourself from fraudulent business solicitations - Navigating the courts to ensure the well-being of your family and children - Help in getting proper coverage from your HMO - And--because sometimes the world is on your side--how to write the perfect thank- you note. Delightfully readable, easy to use, and filled with the addresses of hundreds of corporate customer relations offices and state and federal agencies, Shocked, Appalled, and Dismayed! is an essential resource for anyone who wants to reach out and scold somebody.

From the New York Times Bestselling Author of 'Zodiac' and 'Zodiac Unmasked'. AMERICA WAS THE CRIME SCENE Six days after the devastating events of 9/11, as the dust still clung to the air over New York, a new terror descended upon America. An invisible enemy that when inhaled, fatally ravaged the lungs, body, and brain. Mysterious envelopes filled with lethal powder contaminated everything and everyone they came in contact with. They began arriving at their destinations and unsuspecting victims inhaled the microscopic dust particles carrying the Bacillus anthracis bacteria, more commonly known as anthrax. In this weaponized form, inhalational anthrax is at its most lethal. These poison pen letters would contaminate USPS mailboxes, machinery, letter carriers, mailrooms, newsrooms, and the Capitol, all starting with an entire building in Boca Raton, Florida. Putting in motion one of the most critical manhunts in US history. This is the definitive story of the insidious threat--and the relentless hunt to stop America's most sinister bio-terrorist.

The Mystery Fancier, May/June 1979, Vol 3 No 3, contains: "Introducing Alexandra Roudybush," by Gerie Frazier, "Three Gentle Men," by Mary Jean DeMarr, "The Investigation: Fiction and Fact," by Jo Ann Vicarel, "The Books of Geoffrey Homes," by Ted Dukeshire and "The Nero Wolfe Saga, Part XIII," by Guy M. Townsend.

Information and communication technologies have completely revolutionized our working practices. Career patterns, professional identities, speed of communication, time management, and mobility have been irrevocably changed in an amazingly short period. Drawing on worldwide case studies, this fascinating book explores these transformations and looks to what developments are in store for us in the future. Flexible hours, email, virtual meetings rooms, and working from home are all relatively new additions to our professional lives. The effects of these technological advances have been dramatic and far-reaching. Not only have they helped to connect organizations and institutions in developing countries to the rest of the world, but they also allow people to maintain extensive geographical networks with friends, families, and colleagues. The use of virtual reality and multimedia has had a huge impact on careers ranging from investment banking to molecular biology, and has brought fundamental changes to education and training, the generation of new ideas, and problem solving. This book investigates both the impact of information technology on working practices and, more complexly, how I.T. is bound up in social, political, and economic issues. How are power relations established and maintained through transnational networking? Can the Internet be used as a political tool to manipulate the masses? In what ways has digital technology changed the aesthetics and practices of the Euro-American dance world? What initiatives have been undertaken to ensure people arent excluded from the digital world and have they succeeded? Through answering these and many more questions, this groundbreaking book is an essential guide to the modern day world.

All the signs show that the worthy art of letter writing is in decline. One third of 16-year-olds have never written a letter, and in the next ten years it is predicted that first-class mail will drop by 37%. Emails and texts have overtaken the humble pen and paper as the most popular method of communication. In Kind Regards, Liz Williams explores the popular history of letter writing and how it has shaped the world today - from the early Greek philosophers, to the great letter writers Byron and Walpole and famous letters that changed the world. It also covers the invention of the fountain pen and the growth of the mail delivery system. This is the fascinating story of how a simple piece of paper revolutionized global communication and how, despite the ever-growing influence of technology, handwritten letters are regaining their value, meaning and popularity
