has also been published as "Jim Smiley and His Jumping Frog" (its original title) and "The Notorious Jumping Frog of Calaveras County". In it, the narrator retells a story he heard from a bartender, Simon Wheeler, at the Angels Hotel in Angels Camp, California, about the gambler Jim Smiley. The narrator describes him: "If he even seen a straddle bug start to go anywheres, he would bet you how long it would take him to get to wherever he going to, and if you took him up, he would foller that straddle bug to Mexico but what he would find out where he was bound for and how long he was on the road."

In this book, master teacher, trainer, and celebrated math author Becky Bride will show you step-by-step, activity-by-activity, and lesson-by-lesson how she used cooperative learning structures to help her students succeed with algebra year after year. When the power of student-to-student interaction is unleashed in algebra, students enjoy learning more and the abstract algebraic concepts become more concrete and understandable.
