Euclid Police Chief Scott Meyer. "The teacher risked her..."

The author of *The Killer in the Attic* presents a new collection of real-life tales of crime, mystery, terror, and disaster from Cleveland's past, including the title story about a death on the roller coaster at Euclid Beach Park, in an entertaining and informative anthology. Original.

McGuire, *The Algiers Motel Incident* is a powerful indictment of racism and the US justice system.

This first-ever encyclopedia of the Midwest seeks to embrace this large and diverse area, to give it voice, and help define its distinctive character. Organized by topic, it encourages readers to reflect upon the region as a whole. Each section moves from the general to the specific, covering broad themes in longer introductory essays, filling in the details in the shorter entries that follow. There are portraits of each of the region's twelve states, followed by entries on society and culture, community and social life, economy and technology, and public life. The book offers a wealth of information about the region's surprising ethnic diversity -- a vast array of foods, languages, styles, religions, and customs -- plus well-informed essays on the region's history, culture and values, and conflicts. A site of ideas and innovations, reforms and revivals, and social and physical extremes, the Midwest emerges as a place of great complexity, signal importance, and continual fascination.

The Commander-in-Chief of the Burmese Army, nicknamed the "four-foot Colonel," offers an account of his nation's struggle for independence from a unique perspective. General Dun describes his background, his early life and training (in England and India), and his involvement with the Burmese nationalist movement. He also explains his position in the struggles between the emerging Burmese nation and various minority groups such as the Karens, of which he was a member. This third-person account is filled with humor and insight and allows the reader a rare glimpse into the mind of a powerful personality.

A graphic adaptation of Orson Scott Card's best-selling second volume collects *Ender's Game: Command School Issues 1-5* and follows the efforts of 9-year-old military commander Ender Wiggin to protect the human race against an invading alien force and his own teachers.

With half a million copies in print, *How to Read a Book* is the best and most successful guide to reading comprehension for the general reader, completely rewritten and updated with new material. A CNN Book of the Week: "Explains not just why we should read books, but how we should read them. It's masterfully done." -Farheed Zakaria Originally published in 1940, this book is a rare phenomenon, a living classic that introduces and elucidates the various levels of reading and how to achieve them—from elementary reading, through systematic skimming and inspectional reading, to speed reading. Readers will learn when and how to "judge a book by its cover," and also how to X-ray it, read critically, and extract the author's message from the text. Also included is instruction in the different techniques that work best for reading particular genres, such as practical books, imaginative literature, plays, poetry, history, science and mathematics, philosophy and social science works. Finally, the authors offer a recommended reading list and supply reading tests you can use measure your own progress in reading skills, comprehension, and speed.
