Oscar the Grouch knows a lot about trash, including how to reuse it! Read along as Oscar and friends show young readers that reducing, reusing, and recycling lessens their impact on the planet. Learn how to turn trash into treasure, like making old bottle caps into artwork. We can help Earth! Interior paper made with 30 percent recycled post-consumer waste fibers.

It doesn't take a lot to reduce the amount of trash we create. Taking action can be as simple as recycling bottles and cans or bringing reusable bags to the grocery store. Kids learn this and more about what they can do to help in 10 Things I Can Do to Reduce, Reuse, and Recycle.

A new "green" series!: Little Green Books will educate children on what they can do to be more eco-friendly. The books in this line will be made from recycled materials, and the storylines will cover subjects such as improving the environment, learning about endangered animals, recycling, and much more. Meet Max the Little Monster. He is a cute, furry green monster who is an environmental nightmare. Among other things, he leaves on all the lights, keeps his computer plugged in, blasts the TV, hoards his old toys and uses so much toilet paper it clogs the toilet until finally, his excessive ways cause a power outage. With no TV to watch, computer to play on, video games to play with, Max finds there is a whole big world outside that he can make a difference in the environment. Kids can follow Max the Little Green Monster's journey to environmental awareness and learn tips on how they can become little green monsters themselves. A kid-friendly glossary of terms is included in the back of the book. This 8x8 paperback is perfect bound and will be printed on 100% post-consumer waste recycled paper with soy-ink. The paper is FSC certified.

"Reduce, reuse, and recycle with ideas from [this craft book]"--Amazon.com.

Learn more about graphs while protecting the environment by reducing, reusing, and recycling! Through this book, that has been translated into Spanish, young readers can practice their graphing and STEM skills by making bar graphs and pictographs of recyclable objects. Not only will children feel more confident in their graphing skills, but they will also be more environmentally conscious! Clear images, example graphs, and mathematical diagrams and charts make graphing seem simple and fun!

I'm Michael Recycle for all that I'm worth I'm green and I'm keen to save plane Earth!A small town somewhere near you is in desperate need of salvation...fro drowning in rubbish at the hands of its lazy and wasteful inhabitants! Join Mchael Recycle, the green-caped crusader, as he rescues the town and proves tohe lazy layabouts that recycling can actually be quite good fun!He is a new kid of superhero in a new kind of world.

"This compendium is an easy-to-use guide to environmental education materials focusing on integrated waste management and used oil"--p. i.

Provides 32 detailed, interdisciplinary environmental science lessons with complete directions for use, including summary, introduction, materials needed, preparation and step-by-step teaching directions plus worksheets and background sheets. Organized into six topical units covering Land Use Issues ... Wildlife Issues ... Water Issues ... Atmospheric Issues ... Energy Issues ... Human Issues.

Building Vocabulary from Word Roots provides a systematic approach to teaching vocabulary using Greek and Latin prefixes, bases, and suffixes. Over 90% of English words of two or more syllables are of Greek or Latin origin. Instead of learning words and definitions in isolation, students learn key roots and strategies for deciphering words and their meanings across all content areas. Building Vocabulary from Word Roots: Level 10 kit includes: Teacher's Guide; Student Guided Practice Book (Each kit includes a single copy; additional copies may be ordered in quantities of 10 or more); Assessments to support data-driven instruction; and Digital resources including modeled lessons, 50 bonus activities, and more.
