A Modern Library Paperback Original During the first years of the twentieth century, the British plant collector and explorer Frank Kingdon Ward went on twenty-four impossibly daring expeditions throughout Tibet, China, and Southeast Asia, in search of rare and elusive species of plants. He was responsible for the discovery of numerous varieties previously unknown in Europe and America, including the legendary Tibetan blue poppy, and the introduction of their seeds into the world's gardens. Kingdon Ward's accounts capture all the romance of his wildly adventurous expeditions, whether he was swinging across a bottomless gorge on a cable of twisted bamboo strands or clambering across a rocky scree in fear of an impending avalanche. Drawn from writings out of print for almost seventy-five years, this new collection, edited and introduced by professional horticulturalist and House & Garden columnist Tom Christopher, returns Kingdon Ward to his deserved place in the literature of discovery and the literature of the garden.

"Migration and the Externalities of European Integration analyzes the extra-European dimension of the European Union's (EU) migration policies and the mechanisms developed to enforce the EU's policy decisions. While previous scholarship has tended to overlook the consequences of Europeanization on actors outside the EU this work scrutinizes the foreign policy dimension in EU migration policies and highlights the Union's complex role as an international actor. Written by scholars of migration policy, the essays discuss the impact of EU asylum and refugee policy on Norway, Switzerland, Eastern Europe, Euro-Mediterranean, and EU-Turkish relations and the effect of migration on European immigration controls and welfare policy. This comprehensive treatment of transnational migration will be a valuable resource for students of international affairs, European integration, and international organization."
