Have you ever wondered how search engines display websites in search engine results and how you can get your website to rank on the first page of Google organically? This book will teach you in detail how to do just that via off-site search engine optimization. What does SEO stand for? What's the difference between on-site SEO and off-site SEO and why does off-site SEO matter? In this book, we are going to answer all of the aforementioned questions as well as take a closer look at off-site or off-page search engine optimization and how to implement it correctly for online website success. We will discuss off-page SEO methods and strategies such as blogger outreach for link building, the Skyscraper link building technique, broken link building, white-hat link building, scholarship link-building and backlink building for e-commerce websites. We will also discuss and explore popular SEO tools and platforms such as Moz, Buzzstream, Buzzsumo, Ahrefs, and SEMrush. While off-page SEO may sound like a lot of technical jargon, it is incredibly important if you want people to find your website on search engines and eventually purchase your products and services. Without a good search engine optimization strategy, you practically don't exist on Google as well as other search engines such as Yahoo and Bing. If you want to learn how to grow your website's online visibility and/or want to learn and practice new off-site SEO methods to grow your online presence and soar in the SERPs, then this book is for you!

Clear explanations on every important aspect of SEO mean you can improve your google rankings without any more head- scratching or frustration!"-- Page 4 of cover.

This Guide eBook for Website SEO Strategies to the Search Engine Optimization Industry's Secrets and How to Rank in Google Search Engine & Stay There Google has presented some really important updates in the past year, as all SEO experts have noticed. Apart from the incredible encrypted search that now offers incredible keyword data, the past year has presented some new features for the Penguin, Panda and Hummingbird updates as well. From my last Forbes interview for Internet Marketing, those interested about the SEO profession can conclude the fact that the most popular search engine in the world is creating new barriers to stop all spam techniques as much as possible. However, these last updates do not indicate the fact that the SEO professions will cease in the near future. More and more companies are trying to take their business online so the competitiveness level has increased significantly during this time. Now is the time to obtain the most out of your company's online marketing strategies. However, companies can no longer rely on the "gray hat" SEO techniques to make their businesses visible in the search engines. There is a more complex point of view that covers the SEO industry at the present time, and any professional marketer should be aware of this fact. This new complex vision can be compared to a move from tactician to strategist. Hard work and a great skill of anticipation of Google's next moves is required in order to achieve success with your online business. Google has taken the game to a more complex level, but this does not mean that the digital war has stopped. If you want to accumulate some useful information that can help you to create profitable SEO strategies in 2014, you might want to read the following suggestions that I have created after mixing my researches with current efficient strategies.
