Recounts how some of the passengers on the Hindenburg, Captain Bligh after the mutiny, Antoine de Saint-Exupéry, the crew of the Apollo 13, and other travelers have survived great dangers on their journeys.

Building on experience from 60 countries worth of independent travel, the author takes you on three journeys to places you may never have considered visiting, although you probably should and you definitely could. Learn about a low-budget cruise to Antarctica, understand what the Trans-Siberian Railway really is like, enjoy the natural wonders of Southern Africa. The book is a fun read, but you will also learn about far-away destinations and about how to travel independently anywhere. It's not a travel guide or a travel journal, it's both!More details, including free downloads, available from <http://bjornfree.com/>

Presents images, with a focus on figural photography, produced between 2000 and 2010 by 17 South African photographers: David Goldblatt, Santu Mofokeng, Guy Tillim, Pieter Hugo, Zwelethu Mthethwa, Berni Searle, Jodi Bieber, Terry Kurgan, Zanele Muholi, Hasan and Husain Essop, Roelof van Wyk, Graeme Williams, Kudzanai Chiurai, Sabelo Mlangeni, Jo Ractliffe, Mikhael Subotzky, and Nontsikelelo Veleko.

In this powerful new book by Pastor Kisha Jordan, titled "I Am The Lord That Healeth Thee" she provides a riveting account of the events that unfolded as God brought her back from beyond the point of death. Now physically disabled having lost her right leg and a portion of her hip in a violent car accident, Pastor Kisha invites you into the realm of the supernatural. Left to die in the waning hours of Christmas day 1989, God was simply setting the stage for his glory to be revealed. I Am the Lord that Healeth Thee openly displays the life-changing, mind renewing, blessings of the Lord that awaits all of us. If you are eager to move beyond the pains of yesterday into the glorious life that God has destined for you then this book is a must read for you.

From flashlights and top-of-the-line studio electronic flashes to light stands and battery/inverter packs, this all-encompassing survey evaluates the vast array of lighting and equipment options available to professional photographers. Beginning with a basic history of the role of lighting equipment and the interplay between advances in capture and lighting technologies, the emphasis then shifts to advances made within the past five years that have enabled photographers to consider more low-powered and cost effective options than ever before. In addition to identifying the wide range of gear currently on the market—as well as those photographers may devise on their own—this reference examines the pros and cons of the various technologies and provides suggestions for their most practical use. Photographs of the equipment surveyed as well as real-life images created with the different pieces of equipment are interspersed throughout the text. Other helpful hints include tips for maximizing versatility, investment in each piece of equipment, and a “ Top-Ten Must-Have List. ”

Introduction by Martin Harrison.

This is the second edition of the book first published in 1993 with a title of "The Molecular Biology of Flowering". It expands and updates the current knowledge of the molecular mechanisms of flowering and shows how molecular biology and the opportunities of biotechnology have made major progress when applied to flowering. It includes new chapters and others substantially revised and updated. Topics such as the evolution of flowers, floral senescence and apomixis are included in this new edition. The 13 chapters of this book are presented in the following sections: external and internal regulation of flowering (3 chapters); floral development (6 chapters); and fertilization and gametophyte development (4 chapters). The book is intended for research workers and advanced students in plant molecular biology and developmental biology, from both pure and applied (agricultural and horticultural) perspectives.
