of heart. It is the story of a young girl's loss of innocence while
growing up around a motorcycle club. It is not suitable for children
under the age of seventeen due to language, sexual content, and
intense subject matter. Based on true events. Family. I have tattooed

Looks at the operations of the International Space Station from the perspective of the Houston flight control team, under the leadership of NASA's flight directors, who authored the book. The book provides insight into the vast amount of time and energy that these teams devote to the development, planning and integration of a mission before it is executed. The passion and attention to detail of the flight control team members, who are always ready to step up when things do not go well, is a hallmark of NASA human spaceflight operations. With tremendous support from the ISS program office and engineering community, the flight control team has made the International Space Station and the programs before it a success.
