The Spanning Tree Protocol (STP) is a network protocol that builds a loop-free logical topology for Ethernet networks. The basic function of STP is to prevent bridge loops and the broadcast radiation that results from them. Spanning tree also allows a network design to include backup links providing fault tolerance if an active link fails.. As the name suggests, STP creates a spanning tree that ...

This manual is one of a series of soldier training publications (STPs) that support individual training. Commanders, trainers, and Soldiers will use this manual and STP 21-24-SMCT to plan, conduct, sustain, and evaluate individual training of warrior tasks and battle drills in units. This manual includes the Army Warrior Training plan for warrior skills level (SL) 1 and task summaries for SL 1 critical common tasks that support unit wartime missions. This manual is the only authorized source for these common tasks. Task summaries in this manual supersede any common tasks appearing in military occupational specialty (MOS)-specific Soldier manuals. Training support information, such as reference materials, is also included. Trainers and first-line supervisors will ensure that SL 1 Soldiers have access to this publication in their work areas, unit learning centers, and unit libraries.

Trainers and first-line supervisors will ensure that SL 1 Soldiers have access to this publication in their work areas, unit learning centers, and unit libraries. This manual applies to the Active Army, the Army National Guard/Army National Guard of the United States, and the United States Army Reserve unless otherwise stated. The proponent of this publication is the United States Army Training and Doctrine Command (TRADOC), with the United States Army Training Support Center (ATSC) designated as the principle publishing, printing, and distribution agency. Proponents for the specific tasks are the Army schools and agencies as identified by the school code, listed in appendix A. This code consists of the first three digits of the task identification number.

Very latest edition! This publication, Soldier Training Publication STP 21-1-SMCT Soldier's Manual of Common Tasks: Warrior Skills Level 1 August 2015, contains the individual tasks that are essential to the Army's ability to win on the modern battlefield. In an operational environment, regardless of job or individual MOS, each Soldier risks exposure to hostile actions. This manual contains the warrior skills that Soldiers must be able to perform to fight, survive, and win in combat. This SMCT gives the commander, NCO trainer, first-line supervisor, and individual Soldiers the information necessary to support integration and sustainment training in their units. This information allows trainers to plan, prepare, train, evaluate, and monitor individual training of warrior tasks. Using the appropriate mission-training plan (MTP), military occupational specialty (MOS)-specific Soldier's training publication (STP), and this manual helps provide the foundation for an effective unit-training plan. This manual includes the Army Warrior Training plan for warrior skills level (SL) 1 and task summaries for SL 1 critical common tasks that support unit wartime missions. This manual is the only authorized source for these common tasks. Task summaries in this manual supersede any common tasks appearing in military occupational specialty (MOS)-specific Soldier manuals. This publication, Field Manual FM 3-57 Civil Affairs Operations April 2019, provides Army commanders with the information necessary for the integration of Civil Affairs (CA) capabilities in support of unified land operations. It also provides the doctrinal basis for the conduct of Civil Affairs operations (CAO) in support of civil-military operations (CMO). FM 3-57 clarifies the role of CA forces in the execution of CAO, and in support of CMO, with regard to the missions, employment, support requirements, capabilities, and limitations of these forces. CA forces execute CAO in support of unified land operations in all theaters across the range of military operations to achieve unified action. A force multiplier for every commander, CA forces are one of the primary resources a commander has to assist in dealing with the complex and ever-changing civil component of the operational environment (OE). CA forces are trained, organized, and equipped to plan, execute, and assess CAO in support of Army and joint operations. Their cultural orientation, regional expertise, linguistic capabilities, advisory ability, and civilian acquired professional skills paralleling common government functions are essential elements to the successful completion of the commander's mission. The principal audience for FM 3-57 is the leadership of the Army, officers, and senior noncommissioned officers who command Army forces or serve on the staffs that support those commanders of operations at all levels of war. It is also an applicable reference for the civilian leadership of the U.S. interagency organizations. Although written primarily to assist the Army Service component command, Army corps, Army divisions, brigade combat teams, and maneuver enhancement brigades with the integration of CAO in planning, preparing for, executing, and assessing unified land operations, this FM is applicable for joint force operations as well. FM 3-57 applies to the Active Army, the Army National Guard/Army National Guard of the United States, and the United States Army Reserve (USAR) unless otherwise stated. The proponent of FM 3-57 is the U.S. Army Special Operations Center of Excellence, USAJFKSWCS.

LARGE FORMAT - 8 1/2 by 11 inches, September 2017 The Army's basic mission is to train and prepare Soldiers, leaders, and units to fight and win in combat. As explained in the Army's capstone training doctrine (ADP 7-0), units do not have the time or the resources to achieve and sustain proficiency with every possible training task. Therefore, commanders must identify the tasks that are the units' critical wartime tasks. These tasks then become the unit's Mission Essential Task List. Commanders use the METL to develop their unit-training

plan. Noncommissioned officers plan the individual training that Soldiers need to become warriors and to accomplish the METL. The STPs, also known as Soldier's manuals, provide the critical individual tasks for each military occupational specialty that support all of the unit's missions. The NCO leadership uses the tasks in the SMs to train the Soldiers and measure the Soldiers' proficiency with these unit-critical tasks. The manuals provide task performance and evaluation criteria and are the basis for individual training and evaluation in the unit and for task-based evaluation during resident training. Why buy a book you can download for free? We print the paperback book so you don't have to. First you gotta find a good clean (legible) copy and make sure it's the latest version (not always easy). Some documents found on the web are missing some pages or the image quality is so poor, they are difficult to read. If you find a good copy, you could print it using a network printer you share with 100 other people (typically its either out of paper or toner). If it's just a 10-page document, no problem, but if it's 350-pages, you will need to punch 3 holes in all those pages and put it in a 3-ring binder. Takes at least an hour. It's much more cost-effective to just order the bound paperback from Amazon.com We include a Table of Contents on the back cover for quick reference. We print these paperbacks as a service so you don't have to. The book is compact, tightly-bound paperback, full-size (8 1/2 by 11 inches), with large text and glossy covers. 4th Watch Publishing Co. is a SDVOSB. <https://usgovpub.com>
