Focusing on strategic management, this text presents contemporary research in the area and emphasizes conceptual tools and skills. It contains multiple "Business Week" and traditional strategic management cases, and presents a pedagogical model created by the authors.

Human Resource Strategy provides an overview of the academic and practitioner responses to these and other questions. Applying an integrative framework, the authors review twenty years' worth of empirical and theoretical research in an attempt to reconcile often-conflicting conceptual models and competing empirical results. The authors present much of the relevant research in the context of the critical strategic decisions that executives must actually make with regard to human resource investments and deployments. As a result, often complex theoretical models and scientific findings are presented such that they are not only understandable but also highly relevant to non-research-oriented practitioners.

Contemporary research in strategic management, with an emphasis on conceptual tools and skills created by scholars and practitioners in the field are evident throughout Strategic Management, 9e. Pearce and Robinson have retained high level of academic credibility and market-leading emphasis on strategic practice with this edition. This text continues to have strong support from longtime adopters and growing support in schools with a desire to provide straightforward treatment of strategic management with a practical, systematic approach. The 9th edition will once again include numerous Business Week short cases and a wide assortment of traditional, longer strategic management cases. Pearce and Robinson continue to use a unique pedagogical model they created to provide logic and structure to its treatment of strategic management which in turn makes the material more easily organized by the instructor and learned by the student.
