If I am asked in the framework of Book 1, “ Who are you? ” I, in answering, might say “ I don ’ t know who in the world I am. ” Nevertheless there is a sense in which I always know what “ I ” refers to and can never not know, even if I have become, e.g., amnesiac. Yet in Book 2, “ Who are you? ” has other senses of oneself in mind than the non-sortal “ myself ” . For example, it might be the pragmatic context, as in a bureaucratic setting; but “ Who are you? ” or “ Who am I? ” might be more anguished and be rendered by “ What sort of person are you? ” or “ What sort am I? ” Such a question often surfaces in the face of a “ limit-situation ” , such as one ’ s death or in the wake of a shameful deed where we are compelled to find our “ centers ” , what we also will call “ Existenz ” . “ Existenz ” here refers to the center of the person. In the face of the limit-situation one is called upon to act unconditionally in the determination of oneself and one ’ s being in the world. In this Book 2 we discuss chiefly one ’ s normative personal-moral identity which stands in contrast to the transcendental I where one ’ s non-sortal unique identity is given from the start. This moral identity requires a unique self-determination and normative self-constitution which may be thought of with the help of the metaphor of “ vocation ” . We will see that it has especial ties to one ’ s Existenz as well as to love. This Book 2 claims that the moral-personal ideal sense of who one is is linked to the transcendental who through a notion of entelechy. The person strives to embody the I-ness that one both ineluctably is and which, however, points to who one is not yet and who one ought to be. The final two chapters tell a philosophical-theological likely story of a basic theme of Plotinus: We must learn to honor ourselves because of our honorable kinship and lineage “ Yonder ” .

Theosophy expresses modern versions of the ancient wisdom found in world religions. Ultimately, it concerns living fully by learning the meaning of life and thereby achieving self-transformation. These essays by a premier American teacher are grouped according to the four stages of the quest for meaning: The Human Condition, Our Hidden Potential, Esoteric Teachings, and Self-Transformation. Written over a lifetime, these essays comprise a reliable, inspiring guide for anyone on a spiritual path.

This is the second book of the trilogy *The Manifestation of the Real Self*, Meher Baba & C. G. Jung: *The Theophany of Majesty and Beauty*. *Glowing Embers* brings a more detailed account of how this path can be undertaken, from its earliest beginnings up to the end of the sixth plane of consciousness, and includes an introduction to the final event of God realization in the seventh and final plane.

This analytical, polemical, and personal book creates a lively interaction between mysticism and activism. Looking beyond superficial links between spirituality and justice, it creates an in-depth engagement of mysticism as an inner revolution and activism as a mirroring socioeconomic transfiguration. Based on the twin premises of the mystical tradition and Social Gospel-liberation theology that those who experience God in prayer or engage in social action ought to be our primary theologians, it examines what these two traditions say about theology, to each other, and to us. The broad synthesis that results from this fascinating dialogue brings new insights into mysticism, activism, theology, and ethics, and casts a unique light on how we pray and live. *If Only We Could See* brings together a wealth of spiritual material from the early Desert, medieval mystics, and modern spiritual writers alongside an equally rich resource of abolitionists, anti-apartheid activists, civil rights leaders, nonviolent change agents, and peacemakers. The results yield valuable insights for a theology that challenges every personal and political status quo.

Rediscover the lost ancient mystery teachings of the Cosmic Womb • Explains how each of us has a holographic blueprint of the Womb of Creation, our spiritual Womb • Offers practices to help awaken your spiritual Womb, experience the Womb of God within, and activate the Womb ' s sacred magic of creation and manifestation • Looks at the power of the moon and its connection to sacred Womb Consciousness • Explores how the lost Womb mystery teachings were encoded in folk and fairy tales, the legends of the Holy Grail, and the traditions of Mary Magdalene and Sophia • Includes access to three guided Womb Awakening audio journeys The Ancients lived by a feminine cosmology of creation, where everything was birthed and dissolved through a sacred universal Womb. Within each of us, whether female or male, lies a holographic blueprint of this Womb of Creation, connecting us to the Web of Life. By awakening your spiritual Womb, the holy of holies within the temple of your body, you can reconnect to the transformative energy of Womb Consciousness and reclaim your sacred powers of creation and love. Drawing on mythical and spiritual traditions from almost every culture, Dr. Azra and Seren Bertrand reconstruct the moon-based feminine mystery teachings of a lost global Womb religion, tracing the tradition all the way back to the Neanderthals and beyond. They explore how these teachings were encoded in the symbolism of folk and fairy tales; the legends of the Holy Grail; the traditions of Mary Magdalene and Sophia; the maiden, queen, and crone archetypes; and the teachings of alchemy and the chakras. They show how sages and shamans across the globe all secretly spoke of the Cosmic Womb and the sacred creative powers of Moon Blood. The authors look at the power of the Moon and its connection to sacred Womb Consciousness, offering meditations and practices to help awaken your spiritual Womb and activate its sacred magic of creation and manifestation. They explain how to activate the energetic gateways of the Womb and merge the heart and Womb to make sexual union the highest sacrament of love. Revealing how we must reconnect with the Divine Feminine to rebirth the Divine Masculine and restore balance to our world, they show how, as we reawaken the powerful ancient path of the Womb Mysteries, we help return our world to harmony with the wild, untamed creative flows and cyclical rhythms of the cosmos.
