The first part of the book, which begins on March 8, 1918, is a story of family life on the Costa Brava and the coming-of-age story of a young man torn between an old-fashioned ideal of a life of quiet dedication to work and family and the intellectual seductions of European culture. Pla's enthusiasms and uncertainties, friendships and crushes, his reading, the drama and politics and absurdity of family life--we are drawn into all these as we also follow Pla in his wanderings through town, scrutinizing his fellow citizens, or out under the magnificent skies of the still-unspoiled countryside of the coast. In January 1919, Pla returns to Barcelona to complete his studies, and the book's second part paints a hilariously revealing picture of student life. He learns next to nothing from his teachers, a good deal more from the writers and artists he meets in caf\u00e9s and salons, and most of all from Barcelona itself, with its night life and ramblas, the city of Gaud\u00ed and Modernisme, where just outside the city limits the seemingly timeless life of the country still went on as before.
