Athena Series by Brad Thor - Goodreads

The Athena Project is comprised of four superwomen from the Delta Force. While in other series we are asked to believe in supermen, such as the author's Scot Horvath, it is only one such individual. Multiply this by four, reverse gender each time, and you really strain this limits of 'suspension of credibility'.

The Athena Project is an outstanding novel. Several of the women from the Athena Project play significant roles in novels in the Scot Harvath series.This is book 9.5 in the Harvath series. As a fan of Brad Thor from his first novel forward I object to 2 of his older Harvath series audio novels (Blowback and Takedown) being re-recorded and re-released earlier this year.

Tucked away in a remote corner of North Carolina's Fort Bragg, behind rows of razor wire and heavily armed guards, lies the headquarters of the nation's most elite counter-terrorism unit—the United States Army's 1st Special Forces Operational Detachment Delta. Here, a brilliant new approach to combating terrorism has just been born. Its codename: The Athena Project.

A man's home is his castle, or so the saying goes, but could it withstand an attack by Attila and the Huns, Ragnar and the Vikings, Alexander and the Greeks, Genghis Khan and the Mongols, or Tamerlane and the Tartars? Backyard Ballistics author William Gurstelle poses this fascinating question to modern-day garage warriors and shows them how to build an arsenal of ancient artillery and fortifications aimed at withstanding these invading hordes. Each chapter introduces a new bad actor in the history of warfare, details his conquests, and features weapons and fortifications to defend against him and his minions. Clear step-by-step instructions, diagrams, and photographs show how to build a dozen projects, including "Da Vinci's Catapult," "Carpini's Crossbow," a "Crusader-Proof Moat," "Alexander's Tortoise," and the "Cheval-de-frise." With a strong emphasis on safety, the book also gives tips on troubleshooting, explains the physics behind many of the projects, and shows where to buy the materials. By the time they've reached the last page, at-home defenders everywhere will have succeeded in creating a fully fortified home.

In ancient texts, there are stories about men who struck from the shadows, seemingly beyond the reach of death itself. These men were considered part angel, part demon. Their loyalty was to their families, their friends, and their kings. You crossed these men at your peril. And once crossed, there was no crossing back. They were fearless: men of honor who have been known throughout history by different names: Spartan, Viking, Samurai. Today, men like these still strike from the shadows. They are highly prized intelligence agents, military operatives, and assassins. One man is all three. Two days ago, that man was crossed—badly. Now, far from home and surrounded by his enemy, Scot Harvath must battle his way out. With no support, no cavalry coming, and no one even aware of where he is, it will take everything he has ever learned to survive. But survival isn't enough. Harvath wants revenge. In the most explosive novel Brad Thor has ever written, page after captivating page of action, intrigue, loyalty, and betrayal will keep you hooked until the very last sentence.

When his name is added to a secret government list of individuals slated for assassination, counterterrorism operative Scot Harvath engages in a high-stakes game of survival while struggling to prevent a terrorist attack and learn who has framed him for treason.
