Acts of the Martyrs are accounts of the suffering and death of a Christian martyr or group of martyrs. These accounts were collected and used in church liturgies from early times, as attested by Saint Augustine. These accounts vary in authenticity. The most reliable follow accounts from trials. Very few of these have survived. Perhaps the most reliable of these is the account of Saint Cyprian. The account of Scillitan Martyrs is also based on trial records, though it has been embellished with mi

This book examines the historical context of the earliest Christian martyrs, and anchors their grisly and often wilful self-sacrifice to the everyday life and outlook of the cities of the Roman empire. Professor Bowersock begins by investigating both the time and the region in which martyrdom, as we know it, came into being. He also offers comparisons of the Graeco-Roman background with the martyrology of Jews and Muslims. A study of official protocols illuminates the bureaucratic institutions of the Roman state as they applied to the first martyrs; and the martyrdoms themselves are seen within the context of urban life (and public spectacle) in the great imperial cities. By considering martyrdom in relation to suicide, the author is also able to demonstrate the peculiarly Roman character of Christian self-sacrifice in relation to other forms of deadly resistance to authority.

Utilising a wide range of early sources, this title identifies the roots of the concept of Christian martyrdom, as looking at how it has been expressed in events such as the shootings at Columbine High School in 1999.

Scholars have come to realize that we can and need to speak of a twin birth of Christianity and Judaism, not a genealogy in which one is parent to the other. In this book, the author develops a revised understanding of the interactions between nascent Christianity and nascent Judaism in late antiquity.

A unique, wide-ranging volume exploring the historical, religious, cultural, political, and social aspects of Christian martyrdom Although a well-studied and researched topic in early Christianity, martyrdom had become a relatively neglected subject of scholarship by the latter half of the 20th century. However, in the years following the attack on the Twin Towers on September 11, 2001, the study of martyrdom has experienced a remarkable resurgence. Heightened cultural, religious, and political debates about Islamic martyrdom have, in a large part, prompted increased interest in the role of martyrdom in the Christian tradition. The Wiley Blackwell Companion to Christian Martyrdom is a comprehensive examination of the phenomenon from its beginnings to its role in the present day. This timely volume presents essays written by 30 prominent scholars that explore the fundamental concepts, key questions, and contemporary debates surrounding martyrdom in Christianity. Broad in scope, this volume explores topics ranging from the origins, influences, and theology of martyrdom in the early church, with particular emphasis placed on the Martyr Acts, to contemporary issues of gender, identity construction, and the place of martyrdom in the modern church. Essays address the role of martyrdom after the establishment of Christendom, especially its crucial contribution during and after the Reformation period in the development of Christian and European national-building, as well as its role in forming Christian identities in Asia, Africa, and the Americas. This important contribution to Christian scholarship; Offers the first comprehensive reference work to examine the topic of martyrdom throughout Christian history Includes an exploration of martyrdom and its links to traditions in Judaism and Islam Covers extensive geographical zones, time periods, and perspectives Provides topical commentary on Islamic martyrdom and its parallels to the Christian church Discusses hotly debated topics such as the extent of the Roman persecution of early Christians The Wiley Blackwell Companion to Christian Martyrdom is an invaluable resource for scholars and students of religious studies, theology, and Christian history, as well as readers with interest in the topic of Christian martyrdom.

The Book of Martyrs by John Foxe written in the 16th century has long been the go-to source for studying the lives and martyrdom of the apostles. Whilst other scholars have written individual treatments on the more prominent apostles such as Peter, Paul, John, and James, there is little published information on the other apostles. In The Fate of the Apostles, Sean McDowell offers a comprehensive, reasoned, historical analysis of the fate of the twelve disciples of Jesus along with the apostles Paul, and James. McDowell assesses the evidence for each apostle's martyrdom as well as determining its significance to the reliability of their testimony. The question of the fate of the apostles also gets to the heart of the reliability of the kerygma: did the apostles really believe Jesus appeared to them after his death, or did they fabricate the entire story? How reliable are the resurrection accounts? The willingness of the apostles to die for their faith is a popular argument in resurrection studies and McDowell offers insightful scholarly analysis of this argument to break new ground within the spheres of New Testament studies, Church History, and apologetics.
