private partnerships (PPPs) at the subnational level. Subnational governments – cities and regions – play a vital role in the infrastructure landscape.

After thirty years of autocratic rule under "Life President" Kamuzu Banda, Malawians experienced a transition to multi-party democracy in 1994. A new constitution and several democratic institutions promised a new dawn in a country ravaged by poverty and injustice. This book presents original research on the economic, social, political and cultural consequences of the new era. A new generation of scholars, most of them from Malawi, cover virtually every issue causing debate in the New Malawi: poverty and hunger, the plight of civil servants, the role of the judiciary, political intolerance and hate speech, popular music as a form of protest, clergy activism, voluntary associations and ethnic revival, responses to the HIV/AIDS pandemic, and controversies over women's rights. Both chameleon-like leaders and the donors of Malawi's foreign aid come under critical scrutiny for supporting superficial democratization. The book ends with a rare public statement on the New Malawi by Jack Mapanje, Malawi's internationally acclaimed writer.

"A rare blend of a well-organized, comprehensive guide to portfolio management and a deep, cutting-edge treatment of the key topics by distinguished authors who have all practiced what they preach. The subtitle, *A Dynamic Process*, points to the fresh, modern ideas that sparkle throughout this new edition. Just reading Peter Bernstein's thoughtful Foreword can move

you forward in your thinking about this critical subject." —Martin L. Leibowitz, Morgan Stanley "Managing Investment Portfolios remains the definitive volume in explaining investment management as a process, providing organization and structure to a complex, multipart set of concepts and procedures. Anyone involved in the management of portfolios will benefit from a careful reading of this new edition." —Charles P. Jones, CFA, Edwin Gill Professor of Finance, College of Management, North Carolina State University

The role of money in politics is an issue of daily debate in old and new democracies alike. The ways that parties get access to money can influence the outcome of elections, determine the relationship between party leaders and members, affect the number of women elected and condition the level of public trust as a whole. The IDEA Handbook is designed to encourage informed public debate. It looks at the strengths and weaknesses of the different national laws and regulations from a regional perspective. It analyses the problems of enforcement and the opportunities for effective public disclosure of funds.

The measurement of human rights has long been debated within the various academic disciplines that focus on human rights, as well as within the larger international community of practitioners working in the field of human rights. Written by leading experts in the field, this

is the most up-to-date and comprehensive book on how to measure human rights. Measuring Human Rights: draws explicitly on the international law of human rights to derive the content of human rights that ought to be measured contains a comprehensive methodological framework for operationalizing this human rights content into human rights measures includes separate chapters on the methods, strengths and biases of different human rights measures, including events-based, standards-based, survey-based, and socio-economic and administrative statistics covers measures of civil, political, economic, social and cultural rights includes a complete bibliography, as well as sources and locations for data sets useful for the measurement of human rights. This volume offers a significant and timely addition to this important area of work in the field of human rights, and will be of interest to academics and NGOs, INGOs, international governmental organizations, international financial institutions, and national governments themselves.

Reviews past trends, summarizes major constraints to income growth, food security, poverty alleviation, and environmental sustainability, and identifies future research and development strategies and priorities for the semi-arid tropics. Focuses on sub-Saharan Africa and South Asia.

This unique sourcebook provides a global, state-of-the-art review of the rapidly evolving field of strategic environmental assessment (SEA) that is intended to serve as a baseline for the work of an OECD Task Team on SEA and a UNEP initiative on integrated planning and assessment. It describes trends in application and experience in different contexts worldwide,

providing in-depth coverage of the status of SEA systems, and practice in developed, transitional and developing countries by a range of development agencies. The book draws on a large body of published and unpublished material, and contributions from a wide range of individual experts, organizations and agencies. It provides an unparalleled and invaluable understanding of the emerging scope and potential of SEA and describes how, when and where it is being used. The sourcebook includes a probing review of concepts, terminology, approaches and tools of SEA, and a comparative analysis of the different types of existing SEA systems. The volume also contains many case examples illustrating SEA practice in different countries and contexts, a full set of references and a number of appendices containing source materials.
