Thornton, flaccid from hot days in the laboratory, welcomed any proffered excuse for a loaf. So they jogged away in the soft evening, from the cropped green hedges and the red brick buildings of Camberton into the country turnpike, smoking and keeping a peaceful silence. After athletics and carts had been talked out there was not much to start fresh conversation with. Camberton slipped away, with its endless problems, its ambitious prods. Jarvis Thornton entered another atmosphere when the cart crunched the gravel of the drive at the Four Corners. The Ellwells were on the veranda. "Who are the Ellwells?" Thornton asked himself as he found a chair next the white dress of the daughter. "And why did I get myself into a family party for a day and two nights without knowing what to expect?"

Every great company has an engaged workforce, and nurturing a culture of engagement is at the heart of great leadership—employees who really care about their work, their coworkers, and the organization can supercharge a company's success. But for many years, engagement has been suffering. Gallop reports that 70 percent of employees are not fully engaged on the job. Mark Miller draws on more than forty years of leadership experience to show leaders at all levels how to change the conversation and create real competitive advantage in the process. In the fourth book in Miller's High Performance Series, CEO Blake Brown sets out to discover how to create the kind of workplace where everyone feels excited to come to work, passionate about what he or she brings to the company, and energized at the end of the day. It's a journey that takes him literally all over the world—from Italy to Greece to Green Bay and more. What he discovers from the pages of history is as relevant as the evening news. Engagement unleashes untapped potential buried deep within the hearts of your people. An engaged workforce is more creative, more driven, and more enthusiastic about reaching company goals. If you put the lessons in this book to work, your people will never look at work, or their leaders, the same way again.

DON'T READ THIS BOOK AFTER SUNDOWN! In any storytelling, but especially in fantasy/horror, there is one thing that is critically important if you want to have your toenails curl and leave holes in your bedspread from gripping it convulsively when reading before sleep. It is that you have to care about the characters or else who cares what happens to them. **STEVE BURT IS A MASTER AT CREATING REAL FOLKS, FOLKS YOU LIKE, FOLKS YOU WANT TO SCREAM AT SO THEY DON'T GO INTO THAT DARK ROOM ALONE.** Couple that with an imagination that won't quit and a storytelling style that grabs you by the shirt front and pulls you in, and you'd better fasten your seat belt before reading Odd Lot. Because you're in for a heck of a ride!
