No recent work of history has generated as

Download Free The Holocaust Industry Reflections On Exploitation Of Jewish

much interest as Daniel Jonah Goldhagen's Hitler's Willing Executioners. Purporting to solve the mystery of the Nazi holocaust, Goldhagen maintains that ordinary Germans were driven by fanatical anti-Semitism to murder the Jews. An immediate national best-seller, the book went on to create an international sensation. Now, in A Nation on Trial, two leading critics challenge Goldhagen's findings and show that his work is not scholarship at all. With compelling cumulative effect, Norman G. Finkelstein meticulously documents Goldhagen's distortions of secondary literature and the

Download Free The Holocaust Industry Reflections On Exploitation Of Jewish

internal contradictions of his argument. In a complementary essay, Ruth Bettina Birn juxtaposes Goldhagen's text against the German archives he consulted. The foremost international authority on these archives, Birn conclusively demonstrates that Goldhagen systematically misrepresented their contents. The definitive statement on the Goldhagen phenomenon, this volume is also a cautionary tale on the corruption of scholarship by ideological zealotry.

Traditionally, American Jews have been broadly liberal in their political outlook;

Download Free The Holocaust Industry Reflections On Exploitation Of Jewish

indeed African-Americans are the only ethnic group more likely to vote Democratic in US elections. Over the past half century, however, attitudes on one topic have stood in sharp contrast to this group's generally progressive stance: support for Israel. Despite Israel's record of militarism, illegal settlements and human rights violations, American Jews have, stretching back to the 1960s, remained largely steadfast supporters of the Jewish "homeland." But, as Norman Finkelstein explains in an elegantly-argued and richly-textured new book, this is now beginning to change. Reports by Human

Rights Watch, Amnesty International and the United Nations, and books by commentators as prominent as President Jimmy Carter and as well-respected in the scholarly community as Stephen Walt, John Mearsheimer and Peter Beinart, have increasingly pinpointed the fundamental illiberalism of the Israeli state. In the light of these exposes, the support of America Jews for Israel has begun to fray. This erosion has been particularly marked among younger members of the community. A 2010 Brandeis University poll found that only about one quarter of Jews aged under 40 today feel "very much"

Suffering Non-Jews In Israel. In successive chapters that combine Finkelstein's customary meticulous research with polemical brio, *Knowing Too Much* sets the work of defenders of Israel such as Jeffrey Goldberg, Michael Oren, Dennis Ross and Benny Morris against the historical record, showing their claims to be increasingly tendentious. As growing numbers of American Jews come to see the speciousness of the arguments behind such apologias and recognize Israel's record as simply indefensible, Finkelstein points to the opening of new possibilities for political advancement in a region that for

Download Free The Holocaust Industry Reflections On Exploitation Of Jewish

decades has been stuck fast in a gridlock of injustice and suffering.

This volume corrects the historical record of anti-Semitism, revealing recent scholarly consensus on the hottest issues of the Israel-Palestine conflict, especially human rights.

This book is both an anatomy and an indictment of the Holocaust industry. In the pages that follow, I will argue that "The Holocaust" is an ideological representation of the Nazi Holocaust.

Download Free The Holocaust Industry Reflections On Exploitation Of Jewish

Richard J. Evans worked on the historical evidence on behalf of the defence during the Irving libel trial. In *Telling Lies about Hitler*, the author discusses the importance of historical writing and the social role of historians in such trials.

This acclaimed study surveys the dominant popular and scholarly images of the Israel-Palestine conflict. Finkelstein opens with a theoretical discussion of Zionism, locating it as a romantic form of nationalism that assumed the bankruptcy of liberal democracy. He goes on to look at the

Download Free The Holocaust Industry Reflections On Exploitation Of Jewish

demographic origins of the Palestinians, with particular reference to the work of Joan Peters, and develops critiques of the influential studies of both Benny Morris and Anita Shapira. Reviewing the diplomatic history with Aban Eban's oeuvre as his foil, Finkelstein closes by demonstrating that the casting of Israel as the innocent victim of Arab aggression in the June 1967 and October 1973 wars is not supported by the documentary record. This new edition critically reexamines dominant popular and scholarly images in the light of the current failures of the peace process.
