I stumbled upon Romano Guardini's "The End of the Modern World" in my readings concerning technology (Jacques Ellul) and culture (Walker Percy). "This book is a masterpiece. It embodies the wealth of modern exegetical criticism opened by Protestant theologians like Karl Barth, the greatest traditions of 'devotio moderna,' French seventeenth century thought, the great insights of the Catholic mystics, and the matured speculation of scholasticism. But above all, it is an approach to Christ through the Gospels." --H.A. Reinhold, "Commonweal"

"Guardini's book *The Lord* has not grown old, precisely because it still leads us to that which is essential, to that which is truly real, Jesus Christ Himself. That is why today this book still has a great mission." --Joseph Cardinal Ratzinger, now Pope Benedict XVI

Romano Guardini (1885-1968) was one of the greatest Catholic minds of the twentieth century. He helped shape Catholic theology between the two world wars and after, as well as the thinking of many non-Catholics of the period. His influence contributed to the reforms of the Second Vatican Council and it continues to be felt through Pope Benedict, who, as a theologian, a cardinal and now as Pope, has drawn extensively on Guardini for inspiration. Indeed, Guardini was a major theological mentor of Benedict XVI, influencing the Pope from his understanding of Jesus to his writings on the sacred Liturgy, from his view of faith to his perspective on the modern world. Romano Guardini: Reform from the Source, written by another great theological mind, Hans Urs von Balthasar, presents a kind of "roadmap" to Guardini's thought. As an introduction to Guardini, von Balthasar's study is intended to challenge readers to take up Guardini's own writings and to find in him the wisdom that has inspired so many others. Many of Guardini's influential works are still in print today, works that cover a wide range of important spiritual, theological and moral issues.

Over fifty years ago, Msgr. Romano Guardini resolved to help his parishioners overcome the distractions and restlessness they suffered at Mass. Just before Mass each Sunday, he gave a brief talk on some aspect of the Mass, teaching them week by week, topic by topic, how to pre-prepare themselves to participate more prayerfully. Afterward, he provided a few minutes of silence for reflection, and then began to offer Mass. So helpful were these 32 talks that they were soon published and have since been reprinted countless times in numerous countries and languages, helping generations of Catholics to deepen their devotion during Mass. Practical, straightforward, and full of wisdom, these talks will help you to quiet your soul, concentrate your mind, and grow receptive to God's grace during Mass. In these pages, you'll discover: The three principal hindrances to full participation in the Mass- to which all of us are prone The real meaning of "keeping holy" the Sabbath. Its special importance for the family One tendency we must overcome when listening to Scripture readings How to gain control over your wandering attention The one indispensable element of a deep liturgical life What to do when the Mass becomes boring and "routine" How to achieve a genuine - not superficial - stillness The importance of listening. Inner barriers that prevent it Why it's good to arrive early at Mass whenever possible The true significance of kneeling and standing in church And dozens of other practical ways to enrich your worship Although he was an eminent theologian, Msgr. Guardini wrote for ordinary Catholics who are struggling to become closer to Christ. Practical, straightforward, yet full of wisdom, *Meditations Before Mass* will help you to quiet your soul,

This short biography by the classic engineering history writer L.T.C. Rolt, first published by Methuen in 1965, traces Brunel's life and career, and recreates the man of immense energy who came to dominate civil engineering in the nineteenth century and whose legacy can still be seen nearly two centuries later. The work for which he is probably best remembered is his construction of a network of tunnels, bridges and viaducts for the Great Western Railway. In March 1833, he was appointed their chief engineer and his work began with the line that linked London to Bristol.

Jesus Christus offers a series of illuminating sermons on the life of Christ that were delivered to students at Berlin University, where Romano Guardini (1885-1968) taught. He was a mentor to such prominent theologians as Hans Urs von Balthasar and Joseph Ratzinger (Pope Benedict XVI) and in this book, Guardini's teaching style comes truly alive. Delivered while writing his bestselling masterwork *The Lord*, these reflections inspire the reader to contemplate the presence that Jesus Christ manifested to the world. Written in the same vein as the Pope Benedict XVI's *Jesus of Nazareth* series, Guardini masterfully carries the reader beyond the stories and events of scripture to focus on the person of Jesus Christ. These meditations are accessible and clear, but maintain the theological depth found in Guardini's seminal work.
