Winner of The Times British Sports Book Award 2014. A fascinating insight into the enclosed world of football scouts in the UK A teenaged boy plays football in a suburban park. His name is Raheem Sterling. The call is made: "Get down here quick. This is something special". Another boy is 8, going on 28. His name is Jack Wilshere. The referee, an Arsenal scout, spirits him away from Luton Town. A young goalkeeper struggles on loan at Cheltenham Town in League Two. His name is Jack Butland. Within months he will be playing for England. Welcome to football's hidden tribe. Scouts are everywhere yet nowhere, faceless and nameless, despite making the informed decisions worth millions. Award-winning sportswriter Michael Calvin opens up their hidden world, examining their disconnected lifestyles, petty betrayals and unconsidered professionalism of men who spend long, lonely hours on the road.

If you want to be muscular, lean, and strong as quickly as possible without steroids, good genetics, or wasting ridiculous amounts of time in the gym and money on supplements...then you want to read this book. Here's the deal: Getting into awesome shape isn't nearly as complicated as the fitness industry wants you to believe. You don't need to spend hundreds of dollars per month on the worthless supplements that steroid freaks shill in advertisements. You don't need to constantly change up your exercise routines to "confuse" your muscles. I'm pretty sure muscles lack cognitive abilities, but this approach is a good way to just confuse you instead. You don't need to burn through buckets of protein powder every month, stuffing down enough protein each day to feed a third world village. You don't need to toil away in the gym for a couple of hours per day, doing tons of sets, supersets, drop sets, giant sets, etc. (As a matter of fact, this is a great way to stunt gains and get nowhere.) You don't need to grind out hours and hours of boring cardio to shed ugly belly fat and love handles and get a shredded six-

Shortlisted for the British Sports Book Awards 2018 "What's your dream, son?" A six year-old boy, head bowed, mumbles the eternal answer: "Be a footballer...." Steadman Scott,

football's most unlikely talent scout, smiles indulgently, and takes him in from the street. He knows the odds. Only 180 of the 1.5 million boys who play organised youth football in England will become a Premier League pro. That's a success rate of 0.012 per cent. How and why do the favoured few make it? What separates the good from the great? Who should they trust – the coach, the agent or their parents? Michael Calvin provides the answers on a journey from non-league grounds to hermetically sealed Premier League palaces, via gang-controlled sink estates and the England team's inner sanctum. He interviews decision makers, behavioural specialists, football agents and leading coaches. He shares the hopes and fears of players and their parents. He exposes bullying and a black economy in which children are commodities, but remains true to the dream.

Maurice Allington has reached middle age and is haunted by death. As he says, "I honestly can't see why everybody who isn't a child, everybody who's theoretically old enough to have understood what death means, doesn't spend all his time thinking about it. It's a pretty arresting thought." He also happens to own and run a country inn that is haunted. The Green Man opens as Maurice's father drops dead (had he seen something in the room?) and continues as friends and family convene for the funeral. Maurice's problems are many and

increasing: How to deal with his own declining health? How to reach out to a teenage daughter who watches TV all the time? How to get his best friend's wife in the sack? How to find another drink? (And another.) And then there is always death. The Green Man is a ghost story that hits a live nerve, a very black comedy with an uncannily happy ending: in other words, Kingsley Amis at his best.

"Nick Hornby meets Chuck Palahniuk in this powerful, provocative, and heartfelt epistolary novel from New York Times bestselling and award-winning author J. Michael Straczynski. Life has other plans for a group of strangers who want to end it all on a cross-country road trip, but then bond in ways they never could have imagined"--

The People's Republic of China dominates half the globe, balanced only by the combined power of the decaying Western world. As main players in a new age of expansion, the Chinese reach outward to establish many stations throughout the solar system. Sun Xinmei is a bold and devious young graduate of Tsinghua University in Beijing who becomes intimately embroiled in the system wide slave trade as an agent of the Ministry of State Security. Li Feng is a brave young man destined to serve as an officer in the Divine Space Force of the PRC. As such he's trained to lead robotic weapons as much as the men

who follow them into battle. Promised to each other, Xinmei and Feng hope to lead successful careers and someday cross paths again to share prosperous lives. Though space itself proves to be a harsh frontier, they discover that the greatest obstacles to their plans are the inhabitants of the space stations that dot the solar system.

The Neverending Story is Michael Ende's best-known book, but Momo—published six years earlier—is the all-ages fantasy novel that first won him wide acclaim. After the sweet-talking gray men come to town, life becomes terminally efficient. Can Momo, a young orphan girl blessed with the gift of listening, vanquish the ashen-faced time thieves before joy vanishes forever? With gorgeous new drawings by Marcel Dzama and a new translation from the German by Lucas Zwirner, this all-new 40th anniversary edition celebrates the book's first U.S. publication in over 25 years.

Life on the street is hard. Drug dealers, thieves, and even the security officers of the giant walking city of Manhatsten are up to no good. But somehow, Mimi's done it for centuries. Of course, it helps that she is able to peek into other people's minds and avoid trouble most of the time. Unfortunately, that same talent is about to get her into a whole other world of trouble. One that she never even knew existed.
