(Book). *Mixerman* is a recording engineer working with a famous producer on the debut album of an unknown band with a giant recording budget. *Mixerman* is supposed to be writing about recording techniques, but somehow, through that prism, he has hit upon a gripping story. Like all great narratives, *Mixerman's* diary has many anti-heroes for whom we, the readers, can have nothing but contempt. The band consists of the four most dislikable human beings you can imagine. The singer is vain and pretentious. The guitarist is a serious depressive. The drummer is as "dumb as cotton," and the bassist is merely mean and petty, making him the only one that *Mixerman* can stand. All four of them hate each other's guts, and they haven't even been on tour yet. *Mixerman* takes you through the recording process of a bidding war band in over their heads with a famous record producer (also in over his head). Many find *Mixerman's* diary entries side-splittingly funny. Some find them maddening. And a select few feel they are the most despicable accountings of record-making ever documented.
