Trevanian must have done a lot of research into the Basque culture, and his glimpses of the festival attended by the principal characters are colorful and fascinating, especially for the way in which they bring out a previously unknown side of the normally reserved, albeit forthright in manner, Katya.

Trevanian - AbeBooks

Trevanian originally intended to publish The Main under the pen name Jean-Paul Morin. Next came Shibumi in 1979, a meta-spy novel, which received the most critical acclaim. In 1983 he published The Summer of Katya, a psychological horror novel. The wide diversity of genres led to a popular theory that "Trevanian" was a collective pen name for a group of writers working together.

and its most accomplished—and well-paid—assassin. Hel is a genius, a mystic, and a master of language and culture, and his secret is his determination to attain a rare kind of personal excellence, a state of effortless perfection known only as shibumi. Now living in an isolated mountain fortress with his exquisite mistress, Hel is unwillingly drawn back into the life he 'd tried to leave behind when a beautiful young stranger arrives at his door, seeking help and refuge. It soon becomes clear that Hel is being tracked by his most sinister enemy—a supermonolith of international espionage known only as the Mother Company. The battle lines are drawn: ruthless power and corruption on one side, and on the other . . . shibumi.

Jonathan Hemlock lives in a renovated Gothic church on Long Island. He is an art professor, a mountain climber, and a

mercenary, performing assassinations (i.e., sanctions) for money to augment his black-market art collection. Now Hemlock is being tricked into a hazardous assignment that involves an attempt to scale one of the most treacherous mountain peaks in the Swiss Alps, the Eiger. In a breathtakingly suspenseful story that is part thriller and part satire, the author traces Hemlock's spine-tingling adventures, introducing a cast of intriguing characters—villains, traitors, beautiful women—into the highly charged atmosphere of danger. The accumulating threads of suspicion, accusation, and evidence gradually knit themselves into a bizarre and death-defying climax in this exciting, entertaining novel that will keep readers on the edge of their seats until the last absorbing page.

Critically-acclaimed author Don Winslow introduces a prelude to Trevanian's classic thriller *Shibumi*, the story of genius, mystic and the perfect, formidable assassin Nicholai Hel. It is the fall of 1951, and the Korean War is raging. Twenty-six-year-old Nicholai Hel has spent the last three years in solitary confinement at the hands of the Americans. Hel is a master of *hoda korosu*, or "naked kill," is fluent in seven languages, and has

honed extraordinary "proximity sense": an extra-awareness of the presence of danger. He has the skills to be the world's most fearsome assassin and now the CIA needs him. The Americans offer Hel freedom, money, and a neutral passport in exchange for one small service: go to Beijing and kill the Soviet Union's commissioner to China. It's almost certainly a suicide mission, but Hel accepts. Now he must survive chaos, violence, suspicion, and betrayal while trying to achieve his ultimate goal of satori: the possibility of true understanding and harmony with the world.
