When Bill Bratton was sworn in as New York City's police commissioner in 1994, he made what many considered a bold promise: The NYPD would fight crime in every borough...and win. It seemed foolhardy; even everybody knows you can't win the war on crime. But Bratton delivered. In an extraordinary twenty-seven months, serious crime in New York City went down by 33 percent, the murder rate was cut in half--and Bill Bratton was heralded as the most charismatic and respected law enforcement official in America.. In this outspoken account of his news-making career, Bratton reveals how his cutting-edge policing strategies brought about the historic reduction in crime. Bratton's success made national news and landed him on the cover of Time. It also landed him in political hot water. Bratton earned such positive press that before he'd completed his first week on the job, the administration of New York's media-hungry mayor Rudolph Giuliani, threatened to fire him. Bratton gives a vivid, behind-the-scenes look at the sizzle and substance, and he pulls no punches describing the personalities who really run the city. Bratton grew up in a working-class Boston neighborhood, always dreaming of being a cop. As a young officer under Robert di Grazia, Boston's progressive police commissioner, he got a ground-level view of real police reform and also saw what happens when an outspoken, dynamic, reform-minded police commissioner starts to outshine an ambitious mayor. He was soon in the forefront of the community policing movement and a rising star in the profession. Bratton had turned around four major police departments when he accepted the number one police job in

America. When Bratton arrived at the NYPD, New York's Finest were almost hiding; they had given up on preventing crime and were trying only to respond to it. Narcotics, Vice, Auto Theft, and the Gun Squads all worked banker's hours while the competition--the bad guys--worked around the clock. Bratton changed that. He brought talent to the top and instilled pride in the force; he listened to the people in the neighborhoods and to the cops on the street. Bratton and his "dream team" created Compstat, a combination of computer statistics analysis and an unwavering demand for accountability. Cops were called on the carpet, and crime began to drop. With Bratton on the job, New York City was turned around. Today, New York's plummeting crime rate and improved quality of life remain a national success story. Bratton is directly responsible, and his strategies are being studied and implemented by police forces across the country and around the world. In Turnaround, Bratton shows how the war on crime can be won once and for all.

"When Bill Bratton became a Boston street cop after returning from serving in Vietnam, he was dismayed by the corrupt old guard, and it is fair to say the old guard was dismayed by him too. But his success fighting crime could not be denied. Propelled by extraordinary results, Bratton had a dazzling rise, and ultimately a dazzling career, becoming the most famous police commissioner of modern times. The Profession is the story of that career in full ... [this work] is both a searching examination of the path of policing over the past fifty years, for good and also for ill, and a master class in transformative leadership. Bill Bratton was

never brought into a police department to maintain the status quo; wherever he went, from the New York Transit Police in the 80's to Los Angeles after Rodney King to New York again in the era of unchecked stop and frisk, root and branch reinvention was the order of the day, and he met the challenge. There are few other positions on Earth in which life-and-death stakes combine with intense public scrutiny and turbulent political cross-winds as they do for the police chief of a major American city. Now more than ever, when the role of the police in society is under a microscope like never before, and for good reasons, Bill Bratton's authority on the subject of improving law enforcement is profoundly useful. The Profession presents not only a fascinating and colorful life at the heights of law enforcement leadership, but the vision for the future of American policing that we sorely need"--

Born in a rough-and-tumble neighborhood of Dublin, John F. Timoney moved to New York with his family in 1961. Not long after graduating from high school in the Bronx, he entered the New York City Police Department, quickly rising through the ranks to become the youngest four-star chief in the history of that department. Timoney and the rest of the command assembled under Police Commissioner Bill Bratton implemented a number of radical strategies, protocols, and management systems, including CompStat, that led to historic declines in nearly every category of crime. In 1998, Mayor Ed Rendell of Philadelphia hired Timoney as police commissioner to tackle the city's seemingly intractable violent crime rate. Philadelphia became the great laboratory experiment: Could the systems and policies employed in New York work elsewhere? Under Timoney's leadership, crime declined in every major category, especially homicide. A similar decrease not only in crime but also in corruption marked Timoney's tenure in his next position as police chief of Miami, a post he held from 2003 to January 2010. *Beat Cop to Top Cop: A Tale of Three Cities* documents Timoney's rise, from his days as a tough street cop in the South Bronx to his role as police chief of Miami. This fast-moving narrative by the man *Esquire* magazine named "America's Top Cop" offers a blueprint for crime prevention through first-person accounts from the street, detailing how big-city chiefs and their teams can tame even the most unruly cities. Policy makers and academicians have long embraced the view that the police could do little to affect crime in the long term. John Timoney has devoted his career to dispelling this notion. *Beat Cop to Top Cop* tells us how.

On a hot summer afternoon in 1972, three teenagers drove into an unfamiliar neighborhood and six lives were altered forever. Thirty five years later, one survivor of that day reaches out to another, opening a door that could lead to salvation. But another survivor is now out of prison, looking for reparation in any form he can find it. THE TURNAROUND takes us on a journey from the rock-and-soul streets of the '70s to the changing neighborhoods of D.C. today, from the diners and auto garages of the city to the inside of Walter Reed Army Medical Hospital, where wounded men and women have returned to the world in a time of war. A novel of fathers and sons, wives and husbands, loss, victory and violent redemption, THE TURNAROUND is another compelling, highly charged novel from George Pelecanos, "the best crime novelist in America." -Oregonian

For the past thirty years, Steve Miller has done the messy, unpleasant work of salvaging America's lost companies with such success that the Wall Street Journal has dubbed him "U.S. Industry's Mr. Fix It." From his very first crisis assignment as point man for Lee Iacocca's rescue team at Chrysler, Miller built an international reputation while fixing major problems in such varied industries as steel, construction, and health care. Most recently, as chairman and CEO of the bankrupt automotive parts manufacturer Delphi Corporation, he has confronted head-on the major issues threatening the survival of Detroit's Big Three. A battle is being fought in the heart of industrial America—or what is left of it—Miller observes. In the auto industry as well as every manufacturing corporation, management and labor are at loggerheads over wages and the skyrocketing costs of employee benefits. The way out of

this battle is often painful and Miller is deeply aware of the high price individual workers and many communities have had to pay as a result. In this frank and unsparing memoir, Miller reveals a rarely seen side of American management. Miller recounts the inside story of the many turnaround jobs that have led to his renown as Mr. Fix It. But he also paints an intimate picture of his relationship with Maggie Miller, his wife of forty years, with whom Miller shares the credit for his success. Described by Miller as "my mentor and tormentor," Maggie served as his most trusted adviser and kept him focused on what truly matters until her death from brain cancer in 2006. A deeply moving personal story and timely snapshot of the state of American manufacturing and what it will take to restore it to profitability, *The Turnaround Kid* is Steve Miller's fascinating look at his education as an American executive.

THE INSIDE STORY OF THE EPIC TURNAROUND OF FORD MOTOR COMPANY UNDER THE LEADERSHIP OF CEO ALAN MULALLY. At the end of 2008, Ford Motor Company was just months away from running out of cash. With the auto industry careening toward ruin, Congress offered all three Detroit automakers a bailout. General Motors and Chrysler grabbed the taxpayer lifeline, but Ford decided to save itself. Under the leadership of charismatic CEO Alan Mulally, Ford had already put together a bold plan to unify its divided global operations, transform its lackluster product lineup, and overcome a dysfunctional culture of infighting, backstabbing, and excuses. It was an extraordinary risk, but it was the only way the Ford family—America's last great industrial dynasty—could hold on to their company. Mulally and his team pulled off one of the greatest comebacks in business history. As the rest of Detroit collapsed, Ford went from the brink of bankruptcy to being the most

profitable automaker in the world. American Icon is the compelling, behind-the-scenes account of that epic turnaround. On the verge of collapse, Ford went outside the auto industry and recruited Mulally—the man who had already saved Boeing from the deathblow of 9/11—to lead a sweeping restructuring of a company that had been unable to overcome decades of mismanagement and denial. Mulally applied the principles he developed at Boeing to streamline Ford's inefficient operations, force its fractious executives to work together as a team, and spark a product renaissance in Dearborn. He also convinced the United Auto Workers to join his fight for the soul of American manufacturing. Bryce Hoffman reveals the untold story of the covert meetings with UAW leaders that led to a game-changing contract, Bill Ford's battle to hold the Ford family together when many were ready to cash in their stock and write off the company, and the secret alliance with Toyota and Honda that helped prop up the American automotive supply base. In one of the great management narratives of our time, Hoffman puts the reader inside the boardroom as Mulally uses his celebrated Business Plan Review meetings to drive change and force Ford to deal with the painful realities of the American auto industry. Hoffman was granted unprecedented access to Ford's top executives and top-secret company documents. He spent countless hours with Alan Mulally, Bill Ford, the Ford family, former executives, labor leaders, and company directors. In the bestselling tradition of Too Big to Fail and The Big Short, American Icon is narrative nonfiction at its vivid and colorful best.

playbook for collaborating across the boundaries of our networked world. Today, when everyone is connected, collaboration is the game changer. Agencies and firms, citizens and groups who can collaborate, Bratton and Tumin argue, will thrive in the networked world; those who can't are doomed to perish. No one today is better known around the world for his ability to get citizens, governments, and industries working together to improve the safety of cities than William Bratton. At Harvard, Zachary Tumin has led senior executives from government and industry in executive sessions and classrooms for over a decade, burnishing a global reputation for insight and leadership. Together, Bratton and Tumin draw on in-depth accounts from Fortune 100 giants such as Alcoa, Wells Fargo, and Toyota; from masters of collaboration in education, social work, and the military; and from Bratton's own storied career. Among the specific strategies they reveal:

- Start collaboration with a broad vision that supporters can add to and make their own
- Rightsize problems, and get value in the hands of users fast
- Get the right people involved—from sponsors to grass roots
- Make collaboration pay in the right currency—whether recognition, rewards, or revenue

Today companies and managers face unique challenges—and opportunities—in reaching out to others, thanks to the incredibly connected world in which we live. Bratton and Tumin provide practical strategies anyone can use, from the cubicle to the boardroom. This is the ultimate guide to getting things done in today's networked world.

troubled, under-enrolled, bottom-ranked college from disrepair and impending closure to wide regard as one of the top small, residential private colleges in the east. By the time Norman Smith departed in 2002, the college was ranked top tier, was full to capacity, and was cited as one of Americas most beautiful college campuses. Located on a hilltop overlooking Manhattan that had once been Vanderbilt and Cunard estates, Wagner College should never have gotten into trouble. This recounting is not only an engaging human story of the many trustees, benefactors, faculty, and staff who were key to the turnaround, but also represents a case study template of what must happen for any college to survive and ultimately flourish in these competitive times for private higher education.
