smartphone obsolete, Covert-One operative Colonel Jon Smith is assigned to assess its military potential. He discovers that enhanced vision, real-time battlefield displays, unbreakable security, and near-perfect marksmanship are only the beginning of a technology that will change the face of warfare forever--and one that must be kept out of the hands of America's enemies at all costs. Meanwhile, in the mountains of Afghanistan, CIA operative Randi Russell encounters an entire village of murdered Afghans--all equipped with enhanced Merge technology that even the Agency didn't know existed. As Smith and Russell delve into the circumstances surrounding the Afghans' deaths, they're quickly blocked by someone who seems to have access to the highest levels of the military--a person that even the president knows nothing about. Is the Merge really as secure as its creator claims? And what secrets about its development is the Pentagon so desperate to hide? Smith and Russell are determined to learn the truth. But they may pay for it with their lives . . .

With U.S. intelligence agencies wracked by internal power struggles and paralyzed by bureaucracy, the president was forced to establish his own clandestine group--Covert-One. It is activated only as a last resort, when the threat is on a global scale and time is running out. **THE JANUS REPRISAL** It begins with a terrorist attack. Covert-One operative Colonel Jon Smith is attending a conference in The Hague on infectious diseases, together with leading scientists and political figures from around the world. Without warning, the conference hotel is consumed in a bloodbath. Smith is caught in the crossfire and barely escapes . . . but not before discovering a picture of himself and two other targets in the pocket of one of the shooters. But the hotel is not the only location under attack in The Hague. Bombs are going off at the train station, the airport, and the International Criminal Court, where Pakistani warlord Oman Dattar is being held while he's tried for crimes against humanity. In the resulting chaos, the prisoner escapes.

Robert Ludlum's bestselling Covert-One series continues with an exciting new novel by New York Times bestselling author Kyle Mills. An attack on a Japanese warship brings Japan and China to the brink of war. Meanwhile, top Covert-One operative Colonel Jon Smith is sent on a mission to recover mysterious material from the wreckage of the Fukushima nuclear reactor. When Smith fails to return, CIA agent Randi Russell heads off on an unsanctioned mission to find him. She quickly discovers that the missing samples may be evidence that Japan, led by hawkish military chief of staff Masao Takahashi, has been secretly developing next-generation weapon systems in preparation for a conflict with China. If the Covert-One team can't prevent General Takahashi from provoking a war, the entire world will be dragged into a battle certain to kill tens of millions of people and leave much of planet uninhabitable for centuries.

On a remote island in the Canadian Arctic, researchers discover the wreckage of a mysterious World War II-era aircraft, a discovery that forces the Russian Federation into a shocking admission. The unmarked plane is a Soviet strategic bomber that disappeared with its crew more than fifty years ago while carrying two metric tons of weaponized anthrax. Desperate to prevent a political and diplomatic firestorm, the U.S. president dispatches a Covert-One team led by

As for the Russians, they are lying: a second, even deadlier secret rests within the hulk of the lost bomber, a secret the Russians are willing to kill to protect. Trapped in a polar wilderness, Smith and his team find themselves fighting a savage war on two front--against an enemy they can see and another hiding within their own ranks.

They were the final words spoken by Yuri Danko, an officer in the medical division of Russia's security service, before his body was ripped apart by a spray of assassins' bullets. In possession of Danko's classified papers, Covert-One operative Jon Smith and CIA undercover agent Randi Russell have unearthed a terrifying global conspiracy that threatens to unleash a plague of immeasurable proportions. A Serb terrorist has been dispatched from Russia to spirit hazardous vials of deadly bacteria into the United States. His mission: deliver it to an unknown American government agent-- a shadowy figure whose own motives for acquiring the bioweapon are made all the more unfathomable when both men are found murdered, and the strain is stolen. Now Smith and Russell must track it down, find the madman who possesses it, and stop him before he holds a defenseless world hostage with the power to render the human race extinct.
