This book explores the phenomenon of  
Independence Days. These rituals had complex  
meanings both in the territories concerned  
and in Britain as the imperial metropole,  
where they were extensively reported in the  
press. The text is concerned with the  
political management, associated rhetoric and  
iconography of these seminal celebrations.  
The focus is therefore very much on political  
culture in a broad sense, and changing  
perceptions and presentations over time.  
Highlights of the book include an overview by  
David Cannadine relating the topic to  
ornamentalism, invented tradition and  
transitions in British culture. Although the  
book is mainly concerned with the British

Empire, Martin Shipway - a leading historian and cultural analyst of French decolonization - contributes an acute summary of how the same 'moment' was handled differently in the other great European empires. There are detailed and lively studies by noted specialists of the immediate coming of Independence to India/Pakistan, Malaya, Ghana, Zimbabwe, and Guyana. The book includes a thematic focus on the important role of representatives of the British monarchy in legitimating transfers of sovereignty at their point of climax. This book was published as a special issue of The Round Table.

Nothing will destroy, delay, or diminish a career like impatience. Yet millions of workers quit their jobs every month because they haven't gotten a promotion. It's natural to want to make the most out of one's career--after all, we spend more time working than any other activity in our busy lives. But the stark reality is that job-hopping in search of advancement and fulfillment may actually have the opposite effect. So what's the best way to "get promoted?" According to Rick Whitted, it's about outgrowing your space--making your current job bigger and bigger until management gives you a larger role and increased responsibilities. With a lifetime of experience and research to back him up, Whitted shows readers how to address those things inside of us that prevent career progression--things like self-entitlement, the desire to skip steps, and pride--and instead pursue excellence right where we are. Readers will be challenged to identify why they want a promotion, define for themselves what success really looks like, make lateral moves that position them for promotion later, be innovators in the role they perform right now, and much more. End-of-chapter discussion questions help readers immediately apply concepts to their own personal situation, and

three practical 30-day checklists, also available at [www.careerwhitt.com](http://www.careerwhitt.com), help readers relaunch, redefine, or begin the process of outgrowing their current space.

An erotic paranormal romance... Seductive and lethal vampire, Léopold Devereaux, returns to the Big Easy to find a killer. His search leads him to a beautiful and mysterious woman, who awakens desires and emotions that he's long fought to keep buried. After centuries of self-imposed solitude, the billionaire philanthropist struggles to restrain his growing thirst for the intriguing, lovely female who's captured his attention. Laryssa Theriot, an antiques proprietor in the Vieux Carré, agrees to help the commanding yet debonair stranger, who seeks her assistance. She withholds her secret abilities, afraid to trust the man who threatens to unleash her darkest fantasies. All the while, Léopold consumes her thoughts, testing her limits and bringing her to new levels of ecstasy. As the menacing force that has stalked Laryssa for years finally catches up to her, she submits, putting her life into the hands of the dominant vampire who offers his protection. Deep in the heart of New Orleans, they embark on a perilous adventure, forced to search for an ancient sacrificial relic that they hope will save their lives. As they face formidable challenges, Léopold and Laryssa surrender to the passionate intimacy that possesses them. After hundreds
