In recent years, privatisation has fallen out of favour in many countries because the underlying political factors have not been well understood. This book examines Malaysia's privatisation programme, focusing on how political constraints resulted in the failure of four major privatisations: the national sewerage company (IWK), Kuala Lumpur

Light Rail Transit (LRT), national airline (MAS), and national car company (Proton). It considers why developing countries such as Malaysia might want to embark on privatisation, the factors that lead to policy failure, and what is needed to make it work. It shows clearly that political motives driving privatisation often dominate purely economic considerations, and thus it is necessary to analyse privatisation within the specific country context. It argues that failure in the Malaysian case was due to political considerations that compromised institutional design and regulatory enforcement, leading to problems associated with corruption. It concludes that privatisation does not necessarily improve incentives for efficiency or enhance the finance available for capital investment, and that successful privatisation depends on the state's institutional and political capacity to design and manage an appropriate set of subsidies. Overall, this book is a comprehensive examination of privatisation in Malaysia, providing important insights for understanding the political economy of this process in other developing countries.

This book provides an overview of the current state of Malaysia, looking at political and economic developments and at governance, and discussing the impact of ethnicity, patronage and the reform movement. Apart from discussing issues such as Islamisation and

identity transformations within Malaysian society, it reviews policies like privatisation and provides an examination of business enterprise, exploring how control of 'corporate Malaysia' is interlinked with political developments. This study's primary focus is an analysis of why the reform movement failed to secure substantial support in the late 1990s even though many Malaysians then appeared ready to hold the government accountable for its poor record of a democratic and transparent form of governance. This volume also assesses the likelihood of change as a result of the retirement of Prime Minister Mahathir Mohamad

Examining some of the most critical issues in Malaysian politics today, including human rights, law and democracy, gender and Islam, this book explores the contours of the contemporary landscape of Malaysian politics, focusing especially on politics among the majority ethnic Malay community. In particular, the book explains why changes in patterns of political mobilization and the rhetoric of the dominant parties - particularly the PAS and UMNO - have been so limited, despite the overt and growing dissatisfaction shown by Malaysians with the state of their political system and the ability of these parties to represent their interests. It considers the recent history of events and discourses within Malaysian society, and UMNO and PAS, and goes on to

analyze why important transitions have occurred in society yet political parties have not adapted themselves to these changes and remained reticent about instituting meaningful reforms involving these matters.

Combining both personal and academic insights into the Malaysian women's movement, this study provides an in-depth account of the multiple struggles of the Malaysian women's movement, from securing gender equality in a patriarchal society to achieving unity among members of a multi-ethnic society that are further divided along class and religious lines. Most historical versions of national struggles have created icons out of male figures. The authors of this book have provided a corrective to this. They detail the importance of the role of the women's movement, led by numerous unsung personalities in promoting social change in Malaysia. The book centres on a crucial argument: that in the context of an ethnically fragmented post-colonial, authoritarian society, an autonomous woman movement, which began in the early eighties had actually achieved significant political success. However the study observes that by the late 1990s, feminist issues were also readily appropriated by the state and the market, and also suggests that the emergence of 'market feminism' poses specific challenges for the future of the Malaysian women's movement. This thorough and engaging

account of feminism and the women's movement in Malaysia will capture the interest of scholars, policy makers and activists.

Within the basic and clinical biomedical research community, there is increasing recognition that differences between males and females across the lifespan affect an individual's health, his/her development of disease, signs and symptoms of pathophysiology, and response to therapy. This book is intended as a resource for scientists, clinicians, and students of the nervous system and behavior- a trove of practical information about how to study sex differences in the brain as well as a discussion of what is already known on the topic.

For too long, Indian cuisine has been perceived as complex and time-consuming to prepare. Quick-Fix Indian aims at making Indian cooking accessible to everybody--the beginner, the experienced cook, absolutely anyone wanting to try his or her hand at a new cuisine. The 125 dishes in Quick-Fix Indian are modern and fresh, yet rooted in tradition. These recipes are identifiable as Indian, but that's where the familiarity ends--most of these recipes haven't been seen before, anywhere. While the dishes are simple to make, they are by no means simplistic. They are bright, modern, and complex tasting, belying the fact that they only took 30

minutes or less to prepare. The recipes range from quick breakfasts and soups, to curries, snacks, and sweet drinks. Some of the recipes included are: Chickpea Salad with Pomegranate, Stir-Fried Beef with Peppers, Beet Raita with Cilantro, Sweet Coconut Rice, Spicy Coastal Scramble, Pan-Fried Silky Eggplant, Coriander Shrimp with Zucchini, and Kids' Favorite Banans Fritters. While most of the recipes use easy-to-acquire ingredients, there are a few that will require a trip to a health-food or Indian store. As an added bonus, the book also lists 'exotic' substitutions for readers who'd like to try them. For example, mustard oil adds a special zing to the Sprouted Mung Bean Salad, but canola oil works just fine. And finally, this cookbook is fun. Written in a lighthearted manner, Quick-Fix Indian amuses readers while also providing solid information.

Introducing radical counter-visions of race and slavery, and probing the legal and philosophical questions raised by indenture, *The Coolie Speaks* offers the first critical reading of a massive testimony case from Cuba in 1874. From this case, Yun traces the emergence of a "coolie narrative" that forms a counterpart to the "slave narrative." The written and oral testimonies of nearly 3,000 Chinese laborers in Cuba, who toiled alongside African slaves, offer a rare glimpse into the nature of bondage and the tortuous transition to freedom. Trapped in

one of the last standing systems of slavery in the Americas, the Chinese described their hopes and struggles, and their unrelenting quest for freedom. Yun argues that the testimonies from this case suggest radical critiques of the "contract" institution, the basis for free modern society. The example of Cuba, she suggests, constitutes the early experiment and forerunner of new contract slavery, in which the contract itself, taken to its extreme, was wielded as a most potent form of enslavement and complicity. Yun further considers the communal biography of a next-generation Afro-Chinese Cuban author and raises timely theoretical questions regarding race, diaspora, transnationalism, and globalization.
