From Pulitzer Prize finalist Annie Jacobsen, the untold USA Today bestselling story of the CIA's secret paramilitary units. Surprise . . . your target. Kill . . . your enemy. Vanish . . . without a trace. When diplomacy fails, and war is unwise, the president calls on the CIA's Special

Activities Division, a highly-classified branch of the CIA and the most effective, black operations force in the world. Originally known as the president's guerrilla warfare corps, SAD conducts risky and ruthless operations that have evolved over time to defend America from its enemies. Almost every American president since World War II has asked the CIA to conduct sabotage, subversion and, yes, assassination. With unprecedented access to forty-two men and women who proudly and secretly worked on CIA covert operations from the dawn of the Cold War to the present day, along with declassified documents and deep historical research, Pulitzer Prize finalist Annie Jacobsen unveils -- like never before -- a complex world of individuals working in treacherous environments populated with killers, connivers, and saboteurs. Despite Hollywood notions of off-book operations and external secret hires, covert action is actually one piece in a colossal foreign policy machine. Written with the pacing of a thriller, *Surprise, Kill, Vanish* brings to vivid life the sheer pandemonium and chaos, as well as the unforgettable human will to survive and the intellectual challenge of not giving up hope that define paramilitary and intelligence work. Jacobsen's exclusive interviews -- with members of the CIA's Senior Intelligence Service (equivalent to the Pentagon's generals), its counterterrorism chiefs, targeting officers, and Special Activities Division's Ground Branch operators who conduct today's close-quarters killing operations around the world -- reveal, for the first time, the enormity of this shocking, controversial, and morally complex terrain. Is the CIA's paramilitary army America's weaponized strength, or a liability to its principled standing in the world? Every operation reported in this book, however unsettling, is legal.

delivering fruit in the 1940s. After World War 2, Ed Cameron and his brothers were the driving force began regular deliveries of produce from Melbourne to Sydney. They formed the D&E Cameron transport company, to battle the primitive Hume Highway. Frustrated by the inadequacies of the available European and British trucks, Ed found the solution by importing the first Kenworths to Australia. It was through his efforts that Kenworth set up at Bayswater in Victoria, to produce trucks custom- built for Australian long-haul transport conditions. D&E Cameron ceased operations in the 1970s, but the name continues as Ed's son runs the very successful Glen Cameron Group, as one of Australia's leading transport operations. In this book, Ed Cameron tells the Kenworth story against the background of his family history, and the diversity of his interests following his life on the roads.
