This book deals with the problems in translating literary prose and reveals some pertinent solutions and also concentrates on the need to expand the perimeters of Translation Studies. The translation courses offered at many universities in Bangladesh and overseas treat the subject mostly as an outcome of Applied Linguistics. Presently, the teachers and students of translation are confused at the mounting impenetrability of the books and articles that flood the market.

Unfortunately, the translators lay more emphasis on the translation of poetry; there should be more research regarding the particular problems of translating literary prose. One explanation of this could be the fact that the status of poetry is considered higher, but it is more possibly due to the notable flawed notion that the novels, essays, fiction etc. possess simple structures compared to that of a poem and is thus easier to translate. However, many debates have been organised over when to translate, when to apply the close local equivalent, when to invent a new word by translating clearly, and when to copy. Simultaneously, the "untranslatable" cultural-bound words and phrases have been continuously fascinating the prose-translators and translation theorists. The plea made in this book is to admit the fact that there is a lot to be learnt from shaping the criteria for undertaking a prose-translation and we should appreciate the hard work, difficulties, or frustration of the 'translators' (go-betweeners) in the creation of good sense of the texts.

"Why Translation Matters argues for the cultural importance of translation and for a more encompassing and nuanced appreciation of the translator's role. As the acclaimed translator Edith Grossman writes in her introduction, "My intention is to stimulate a new consideration of an area of literature that is too often ignored, misunderstood, or misrepresented." For Grossman, translation has a transcendent importance: "Translation not only plays its important traditional role as the means that allows us access to literature originally written in one of the countless languages we cannot read, but it also represents a concrete literary presence with the crucial capacity to ease and make more meaningful our relationships to those with whom we may not have had a connection before. Translation always helps us to know, to see from a different angle, to attribute new value to what once may have been unfamiliar. As nations and as individuals, we have a critical need for that kind of understanding and insight. The alternative is unthinkable."--Jacket.

Translation is a very important tool in our multilingual world. Excellent translation is a sine qua non in the work of the Swedish Academy, responsible for the Nobel Prize in Literature. In order to establish a forum for discussing fundamental aspects of the translation of poetry and poetic prose, a Nobel Symposium on this subject was organized. The list of contributors includes Sture Alln, Jean Boase-Beier, Philippe Bouquet, Anders Cullhed, Gunnel Engwall, Eugene Eoyang, Efim Etkind, Inga-Stina Ewbank, Knut Faldbakken, Seamus Heaney, Lyn Hejinian, Bengt Jangfeldt, Francis R Jones, Elke Liebs, Gunilla Lindberg-Wada, G"ran Malmqvist, Shimon Markish, Margaret Mitsutani, Judith Moffett, Mariya Novyikova, Tim Parks, Ulla Roseen, Emmanuela Tandello, Eliot Weinberger, Daniel Weissbort, and Fran(oise Wuilmart.

Performing Without a Stage is a lively and comprehensive introduction to the art of literary translation for readers of foreign fiction and poetry who wonder what it takes to translate, how the art of literary translation has changed over the centuries, what problems translators face in bringing foreign works into English and how they go about solving these problems. This book will also be of interest to translators, writers, editors, critics, and literature students, dealing as it does, often controversially, with such matters as the translator's fidelity to the author, the publishing and reviewing of translations, the nearly nonexistent public image of the stageless translator, and the value for writers and scholars of studying and practicing translation.

Arising from a dissatisfaction with blandly general or abstrusely theoretical approaches to translation, this book sets out to show, through detailed and lively analysis, what it really means to translate literary style. Combining linguistic and lit crit approaches, it proceeds through a series of interconnected chapters to analyse translations of the works of D.H. Lawrence, Virginia Woolf, James Joyce, Samuel Beckett, Henry Green and Barbara Pym. Each chapter thus becomes an illuminating critical essay on the author concerned, showing how divergences between original and translation tend to be of a different kind for each author depending on the nature of his or her inspiration. This new and thoroughly revised edition introduces a system of 'back translation' that now makes Tim Parks' highly-praised book reader friendly even for those with little or no Italian. An entirely new final chapter considers the profound effects that globalization and the search for an immediate international readership is having on both literary translation and literature itself.

A rare contribution to global translation as a 'cross-cultural-open-concept', Arabic Translation Across Discourses provides explorations of Arabic translation as an instance of transcultural and translingual encounters (transculturalizing). This book examines the application and interrogation of discourses of translation in the translation of discourses (religion, literature, media, politics, technology, community, audiovisual, and automated systems of communication for translation). The contributors provide insights into the concerns and debates of Arabic translation as a tradition with local, yet global dimensions of translation and intercultural studies. This volume will be of great interest to students and researchers of all translation studies, but will also provide a rich source for those studying and researching history, geopolitics, intercultural studies, globalization, and allied disciplines.

This work focuses on translators and readers as participants in the communicative process, where the use of allusions is one type of problem to be solved. Reader-response tests and interviews with professional translators highlight the difficulty in conveying the function and meaning of allusive passages to readers in another culture. The many examples discussed also provide materials for translation teachers wanting to address the translation of allusions in their courses.
