AS FEATURED ON NPR'S TALK OF THE NATION Imagine the worst thing in the world. Picture it. Construct it, carefully and deliberately in your mind. Be careful not to omit anything. Imagine it happening to you, to the people you love. Imagine the worst thing in the world. Now try not to think about it. This is what it is like for Fletcher Wortmann. In his brilliant memoir, the author takes us on an intimate journey across the psychological landscape of OCD, known as the "doubting disorder," as populated by God, girls, and apocalyptic nightmares. Wortmann unflinchingly reveals the elaborate series of psychological rituals he constructs as "preventative measures" to ward off the end times, as well as his learning to cope with intrusive thoughts through Clockwork Orange-like "trigger" therapy. But even more than this, the author emerges as a preternatural talent as he unfolds a kaleidoscope of culture high and low ranging from his obsessions with David Bowie, X-Men, and Pokemon, to an eclectic education shaped by Shakespeare, Kierkegaard, Catholic mysticism, Christian comic books, and the collegiate dating scene at the "People's Republic of Swarthmore." Triggered is a pitch-perfect memoir; a touching, triumphantly funny, compulsively readable, and ultimately uplifting coming-of-age tale for Generation Anxiety. ceiling, then she will probably be disappointed when she realizes you were speaking literally." ...on OCD and religion: "I have found Catholicism and obsessive compulsive disorder to be deeply sympathetic to one another. One is a repressive construct founded in existential terror, barely restrained by complex, arbitrary ritual behaviors; the other is an anxiety disorder." ...on OCD humor: "By the sink, I noticed a perfunctory sign warning readers to wash their hands. It was scrawled with graffiti: NO YOU CAN'T GERMS ARE UNPREVENTABLE AND INESCAPABLE." ...on the seductiveness of OCD: "Every so often, everything will work, and you will somehow convince yourself that you are safe, and the disorder will claim credit. I had struck a bargain with the OCD. The transaction was complete. In that moment I became subservient to it."

A brave teen recounts her debilitating struggle with obsessive-compulsive disorder—and brings readers through every painful step as she finds her way to the other side—in this powerful and inspiring memoir. Until sophomore year of high school, fifteen-year-old Allison Britz lived a comfortable life in an idyllic town. She was a dedicated student with tons of extracurricular activities, friends, and loving parents at home. But after awakening from a vivid nightmare in which she was diagnosed with brain cancer, she was convinced the dream had been a warning. Allison believed that she must do something to stop the cancer in her dream from becoming a reality. It started with avoiding sidewalk cracks and quickly grew to counting steps as loudly as possible. Over the following weeks, her brain listed more dangers and fixes. She had to avoid hair dryers, calculators, cell phones, computers, anything green, bananas, oatmeal, and most of her own clothing. Unable to act "normal," the once-popular Allison became an outcast. Her parents questioned her behavior, leading to explosive fights. When notebook paper, pencils, and most schoolbooks were declared dangerous to her health, her GPA imploded, along with her plans for the future. Finally, she allowed herself to ask for help and was diagnosed with obsessive-compulsive disorder. This brave memoir tracks Allison's descent and ultimately hopeful climb out of the depths.

In the bestselling tradition of Augusten Burroughs, a compassionate, witty, and completely candid memoir that chronicles growing up with obsessive-compulsive disorder. When all the neighborhood kids were playing outdoors, seven-year-old Traci Foust was inside making sure the miniature Catholic saint statues on her windowsill always pointed north, scratching out bald patches on her scalp, and snapping her fingers after every utterance of the word God. As Traci grew older, her OCD blossomed to include panic attacks and bizarre behaviors, including a fear of the sun, an obsession with contracting eradicated diseases, and the idea that she could catch herself on fire just by thinking about it. While stints of therapy -- and lots of Nyquil -- sometimes helped, nothing alleviated the fact that her single mother and mid-life crisis father had no idea how to deal with her. Traci Foust shares her wacky and compelling journey with brutal honesty, from becoming a teenage runaway on the poetry slam beat in the hippie beach towns of Northern California to living at a family-owned nursing home, in a room with a seventy-five-year-old WWII Vet who kept mistaking her for a prostitute. In this funny, frenetic, and wonderfully dark-humored account of her struggles with a variety of psychological disorders, Traci ultimately concludes that there is nothing special about being "normal."

Written with the indelible power of *Girl, Interrupted*, *Brain on Fire*, and *Reasons to Stay Alive*, a lyrical, poignant memoir by a young woman about her childhood battle with debilitating obsessive compulsive disorder, and her hard-won journey to recovery. By the age of thirteen, Lily Bailey was convinced she was bad. She had killed someone with a thought, spread untold disease, and ogled the bodies of other children. Only by performing an exhausting series of secret routines could she make up for what she'd done. But no matter how intricate or repetitive, no act of penance was ever enough. Beautifully written and astonishingly intimate, *Because We Are Bad* recounts a childhood consumed by obsessive compulsive disorder. As a child, Bailey created a second personality inside herself—"I" became "we"—to help manifest compulsions that drove every minute of every day of her young life. Now she writes about the forces beneath her skin, and how they ordered, organized, and urged her forward. Lily charts her journey, from checking on her younger sister dozens of times a night, to "normalizing" herself at school among new friends as she grew older, and finally to her young adult years, learning—indeed, breaking through—to make a way for herself in a big, wide world that refuses to stay in check. Charming and raw, harrowing and redemptive, *Because We Are Bad* is an illuminating and uplifting look into the mind and soul of an extraordinary young woman, and a startling portrait of OCD that allows us to see and understand this condition as never before.

A Sunday Times Bestseller Have you ever had a strange urge to jump from a tall building, or steer your car into oncoming traffic? You are not alone. In this captivating fusion of science, history and personal memoir, writer David Adam explores the weird thoughts that exist within every mind, and how they drive millions of us towards obsessions and compulsions. David has suffered from OCD for twenty years, and *The Man Who Couldn't Stop* is his unflinchingly honest attempt to understand the condition and his experiences. What might lead an Ethiopian schoolgirl to eat a wall of her house, piece by piece; or a pair of brothers to die beneath an avalanche of household junk that they had compulsively hoarded? At what point does a harmless idea, a snowflake in a clear summer sky, become a blinding blizzard of unwanted thoughts? Drawing on the latest research on the brain, as well as historical accounts of patients and their treatments, this is a book that will challenge the way you think about what is normal, and what is mental illness. Told with fierce clarity, humour and urgent lyricism, this extraordinary book is both the haunting story of a personal nightmare, and a fascinating doorway into the darkest corners of our minds.

Now a major Channel 4 series *Rose Cartwright* has OCD, but not as you know it. *Pure* is the true story of her ten-year struggle with 'Pure O', a little-known form of the condition, which causes her to experience intrusive sexual thoughts of shocking intensity. It is a brave and frequently hilarious account of a woman who refused to give up, despite being undermined at every turn by her obsessions and enduring years of misdiagnosis and failed therapies. Eventually, the love of family and friends, and Rose's own courage and sense of humour prevailed, inspiring this deeply felt and beautifully written memoir. At its core is a lesson for all of us: when it comes to being happy with who we are, there are no neat conclusions.

Decreed by David Letterman (tongue in cheek) on CBS TV's *The Late Show* to be the pick of "Dave's Book Club 2006," *Candy Girl* is the story of a young writer who

dared to bare it all as a stripper. At the age of twenty-four, Diablo Cody decided there had to be more to life than typing copy at an ad agency. She soon managed to find inspiration from a most unlikely source— amateur night at the seedy Skyway Lounge. While she doesn't take home the prize that night, Diablo discovers to her surprise the act of stripping is an absolute thrill. This is Diablo's captivating fish-out-of-water story of her yearlong walk on the wild side, from quiet gentlemen's clubs to multilevel sex palaces and glassed-in peep shows. In witty prose she gives readers a behind-the-scenes look at this industry through a writer's keen eye, chronicling her descent into the skin trade and the effect it had on her self-image and her relationship with her now husband.

You may not know anyone else who suffers from repetitive "stuck" thoughts and compulsive rituals, but plenty of other teens experience symptoms of obsessive-compulsive disorder (OCD): the need to repeatedly wash their hands, check to make sure everything's okay, count possessions, put things in order, or even repeat thoughts over and over. Rituals like these may calm you down when you're feeling stressed or anxious, but you know all too well that the relief is temporary and you'll have to repeat the ritual when you start feeling uneasy again. This cycle can make you feel trapped, but also may seem impossible or even frightening to break. Free from OCD offers forty easy cognitive behavioral exercises to help you move past your symptoms and live freely and flexibly, without fear. You'll finally be able to stop compulsive thoughts in their tracks and keep them from coming back. This book helps you learn to:

- Notice when thoughts are based in reality and when they're exaggerated
- Recognize and neutralize situations that trigger your symptoms
- Make friends and feel more confident in social situations
- Use relaxation techniques instead of falling back on your rituals
