Forgotten People is a personal, eye-opening, compassionate look at convalescent homes. The author shares his experience in placing his mother in a home and shares the humor, joy, and bitterness of the other residents in the same home during their last days, weeks, months, or years on earth. He encourages readers to spend as much time as possible with the elderly because they may have little time left. We can learn a lot from these interesting, talented, and passionate people.

Includes statistics.

Roland Huntford's brilliant history begins 20,000 years ago in the last ice age on the icy tundra of an unformed earth. Man is a travelling animal, and on these icy slopes skiing began as a means of survival. That it has developed into the leisure and sporting pursuit of choice by so much of the globe bears testament to its elemental appeal. In polar exploration, it has changed the course of history. Elsewhere, in war and peace, it has done so too. The origins of skiing are bound up in with the emergence of modern man and the world we live in today.

A mother and her daughters drive for days without sleep until they crash their car in rural Oklahoma. The mother, Amaranth, is desperate to get away from someone she's convinced will follow them wherever they go--her husband. The girls, Amity and Sorrow, can't imagine what the world holds outside their father's polygamous compound. Rescue comes in the unlikely form of Bradley, a farmer grieving the loss of his wife. At first unwelcoming to these strange, prayerful women, Bradley's abiding tolerance gets the best of him, and they become a new kind of family. An unforgettable story of belief and redemption, AMITY & SORROW is about the influence of community and learning to stand on your own.

A sweet and sexy second chance romance from New York Times and USA Today Bestselling author Jessie Evans Some fires never burn out... After ten years as America's sweetest celebrity chef, Naomi Whitehouse is enjoying life out of the spotlight, back in her hometown of Summerville, Georgia. She's opening a pastry shop with her sister, housesitting for her snowbird parents, and reconnecting with her roots. Life is good until she runs into her high school sweetheart, Jake Hansen, a sexy firefighter who gives her a reception chilly enough to freeze a forest fire. If Naomi wants her homecoming to remain all cupcakes and sugar cookies, she'll have to win Jake over. But how can she earn his forgiveness when he won't even speak to her? When the girl who broke his heart buys a month of dates at the firefighter's Hunk-for-a-Month fundraiser auction, only honor keeps widower Jake Hansen from backing out of the commitment. He won't let the firehouse down, even if it means enduring a torturous month with Naomi Whitehouse. And Jake knows being close to Naomi again will be torture. Even after all these years, she still gets to him...not that he intends to let her know it. He'll be civil, honor his obligation, and with any luck Naomi will tire of playing small-town pastry chef and Jake will never see her again. But as the month passes, Jake and Naomi discover some fires never burn out. Will the heat between them be enough to melt away the pain of past mistakes, or is their second chance doomed from the start?

Short fiction of biblical proportions—and bent—from the science fiction satirist and author of The Godhead Trilogy. James Morrow, “ the most provocative satiric voice in science fiction, ” unabashedly delves into matters both sacred and secular in this collection of short stories buoyed by his deliciously irreverent wit (The Washington Post). Among the dozen selections is the Nebula Award–winning story, “ The Deluge, ” in which a woman of ill repute is rescued by the crew of the ark, who must deal with the consequences of their misguided act of mercy. Also included is a follow-up to the Tower of Babel fable, an unprecedented nativity, and an attempt to stand so-called creation science on its head. Nothing is spared in a collection that “ deliciously skewer[s] not only Judeo-Christian mythology but other sacred cows of modern society, from capitalism to New Age spiritualism ” (Booklist). “ Morrow ’ s is a blend of parody and commentary which challenges readers to reflect upon the human spiritual condition. ” —Midwest Book Review

The coastal zone has always been an important frontier - for trade, food and the foundations of modern civilization. This same zone has also been exploited in one way or another, and sometimes without regard to the balance and schemes of Mother Nature. It is only when things go terribly wrong that we begin to react and attempt to undo the mistakes of the past. At times we have succeeded, but at a high price. At times, we have to retreat and concede defeat as the technology of man is no match to the force of nature. Over time, we learn to work with nature and leverage the science of nature to protect the coastal zone and hold our frontier between the sea and land. This proceeding presents the recent advances in all aspects of ocean and coastal research and management in the Asian and Pacific nations. The volume set provides a valuable source of information for scientists, engineers and professionals dealing with coastal zone issues and challenges in coastal, port and ocean engineering development, as well as the environmental impacts resulting from development of ocean and coastal areas.

Mark Tully is incomparable. No foreign commentator has a greater understanding of the passions, the contradictions, the charms and the resilience that constitute India. In India in Slow Motion, Tully and his colleague Gillian Wright delve further than ever before into this nation of over one billion people, attempting to unravel a culture that, famously, has always resisted unravelling. India in Slow Motion is the account of a journey that for Tully and Wright has no true beginning or end. Covering a diverse range of subjects—from Hindu extremism to child labour, Sufi mysticism to the crisis in agriculture, the persistence of political corruption to the problem of Kashmir—this book challenges the preconceptions others have about India, as well as those India has about itself. India is often depicted as a victim of forces too wild to be controlled—of post-colonial malaise, of religious strife, of the caste system, of a corrupt bureaucratic machine. India in Slow Motion refutes this, probing into the heart of the Indian experience and arguing that change is possible and that solutions do exist. In the process it brings the country and its people brilliantly alive.

Jessica discovers that her volunteer work is not at all what she expected when she finds herself struggling with a group of rowdy first graders while working at the health trailer.
