The Development of the German Air Force, 1919 to 1939, first published in 1968, written by Professor Richard Suchenwirth, and revised and edited by Mr. Harry R. Fletcher, is one of a series of historical studies written for the United States Air Force Historical Division by men who had been key officers in or outstanding authorities on the German Air Force during World War II. The overall purpose of the series is twofold: 1) To provide the United States Air Force with a comprehensive and, insofar as possible, authoritative history of a major air force which suffered defeat in World War II, a history prepared by many of the principal and responsible leaders of that air force; 2) to provide a firsthand account of that air force's unique combat in a major war, especially its fight against the forces of the Soviet Union. This series of studies therefore covers in large part virtually all phases of the Luftwaffe's operations and organization, from its camouflaged origin in the Reichswehr, during the period of secret rearmament following World War I, through its participation in the Spanish Civil War and its massive operations and final defeat in World War II, with particular attention to the air war on the Eastern Front.

This publication reviews the results of research on the western pine beetle up to July 1, 1952. It shows the progress that has been made in over a half-century of study of this one bark beetle. It also records the trials and errors--the research that ran into blind alleys. The record of this pioneer effort in the field of forest entomology in the United States should be of great help to research workers who are faced with similar problems.

Three provocative exposés from a National Jewish Book Award-winning journalist address the CIA's recruitment of Nazis and use of psychological warfare. The Splendid Blond Beast: This groundbreaking investigation into the CIA's post-World War II liberation and recruitment of Nazi war criminals—including the pivotal role played by CIA director Allen Dulles—traces the roots not only of US government malfeasance, but of mass murder as an instrument of financial gain and state power, from the Armenian genocide during World War I to Hitler's Holocaust through the practice of genocide today. "Revelatory and shocking." —Kirkus Reviews Blowback: The true story of how US intelligence organizations employed Nazi war criminals in clandestine warfare and propaganda against the USSR, anticolonial revolutionaries, and progressive movements worldwide that were claimed to be Soviet pawns. "The story is one that needs to be told, and Blowback makes a major contribution to its telling, supplementing a thorough collation of known cases with ample new research." —The New York Times Science of Coercion: Drawing on long-classified documents from the Pentagon, the CIA, and other national security agencies, Simpson exposes secret government-funded research into psychological warfare and reveals that many of the most respected pioneers in the field of communication science were knowingly complicit as their findings were employed for the purposes of propaganda, subversion, intimidation, and counterinsurgency during the Cold War era. "An intriguing picture of the relations between state power and the intellectual community." —Noam Chomsky, Massachusetts Institute of Technology

Watch a 700-year history unfold, from the medieval "hand-gonne" to today's technologically advanced assault weapons. Discover how gun design influenced warfare, from the 15th century when the arquebus defeated swordsmen, to the 20th century when the submachinegun gave the military vastly

This comprehensive volume also features sporting guns, anti-tank weaponry and concealed assassin spy guns, such as the umbrella gun that killed Georgi Markov in 1978. It takes you inside iconic firearm firms such as Biretta, Colt and Lee Enfield, and tells stories of infamous sharpshooters from Dick Turpin to Al Capone. Whether you collect firearms or enjoy field sports and military history, *Guns: A Visual History* is an unmissable reference title.

In a world of spycraft, betrayals, and reversals, a Stasi officer is unraveled by the cruel system he served and by the revelation of a decades-old secret. On November 9, 1989, Bernd Zeiger, a Stasi officer in the twilight of his career, is deteriorating from a mysterious illness. Alarmed by the disappearance of Lara, a young waitress at his regular café with whom he is obsessed, he chases a series of clues throughout Berlin. The details of Lara's vanishing trigger flashbacks to his entanglement with Johannes Held, a physicist who, twenty-five years earlier, infiltrated an American research institute dedicated to weaponizing the paranormal. Now, on the day the Berlin Wall falls and Zeiger's mind begins to crumble, his past transgressions have come back to haunt him. Who is the real Lara, what happened to her, and what is her connection to these events? As the surveiller becomes the surveilled, the mystery is both solved and deepened, with unexpected consequences. Set in the final, turbulent days of the Cold War, *The Standardization of Demoralization Procedures* blends the high-wire espionage of John le Carré with the brilliant absurdist humor of Milan Kundera to evoke the dehumanizing forces that turned neighbor against neighbor and friend against friend. Jennifer Hofmann's debut is an affecting, layered investigation of conscience and country.
