Why I Am Catholic traces Brandon Vogt ' s spiritual journey that culminated in the realization that Catholicism was right about a lot of things and serves as a compelling reproposal of the Church for former Catholics; a persuasive argument for truth and beauty to those who have become jaded and disenchanting with religion; and at the same time offers practicing Catholics a much-needed dose of confidence and clarity to affirm their faith against an increasingly skeptical culture.

"How can you believe all this stuff? This is the number-one question Catholics get asked and, sometimes, we ask ourselves. Why do we believe that God exists, that he became a man and came to save us, that what looks like a wafer of bread is actually his body? Why do we believe that he inspired a holy book and founded an infallible Church to teach us the one true way to live? Ever since he became Catholic, Trent Horn has spent a lot of time answering these questions, trying to explain to friends, family, and total strangers the reasons for his Catholic faith. Some didn't believe in God, or even in the existence of truth. Others said they were spiritual but didn't think you needed religion to be happy. Some were Christians who thought Catholic doctrines over-complicated the pure gospel. And some were fellow Catholics who had a hard time understanding everything they professed to believe on Sunday. Why We're Catholic assembles the clearest, friendliest, most helpful answers that Trent learned to give to all these people and more. Beginning with how we can know reality and ending with our hope of eternal life, it s the perfect way to help skeptics and seekers (or Catholics who want to firm up their faith) understand the evidence that bolsters our belief and brings us joy" --

My title explains itself. But it ' s misleading. There are more than 40 reasons. In fact, there are at least ten to the 82nd power, which, I am told, is the number of atoms in the universe. And that ' s just in ordinary matter, which makes up only 4.9% of the universe, the rest being dark matter and dark energy. Each of my reasons is an independent point, so I have not organized this book by a succession of chapters or headings. After all, most readers only remember a few big ideas or separate points after reading a book. (I ' ve never heard anyone say " Oh, that was a good continuous-process-of-logically-ordered-argumentation " but I ' ve often heard people say, " Oh, that was a good point. " Which takes me back to my main point: " Why are you a Catholic? " is a good question. A good question deserves a good answer. Here are forty of mine.

Winner of a 2018 Catholic Press Association Award: Popular Presentation of the Catholic Faith. (First Place). With atheism on the rise and millions tossing off religion, why would anyone consider the Catholic Church? Brandon Vogt, a bestselling author and the content director for Bishop Robert Barron ' s Word on Fire Catholic Ministries, shares his passionate search for truth, a journey that culminated

in the realization that Catholicism was right about a lot of things, maybe even everything. His persuasive case for the faith reveals a vision of Catholicism that has answers our world desperately needs and reminds those already in the Church what they love about it. A 2016 study by the Public Religion Research Institute found that 25 percent of adults (39 percent of young adults) describe themselves as unaffiliated with any religion. Millions of these so-called "nones" have fled organized religion and many more have rejected God altogether. Brandon Vogt was one of those nones. When he converted to Catholicism in college, he knew how confusing that decision was to many of his friends and family. But he also knew that the evidence he discovered pointed to one conclusion: Catholicism is true. To his delight, he discovered it was also exceedingly good and beautiful. *Why I Am Catholic* traces Vogt's spiritual journey, making a refreshing, twenty-first century case for the faith and answering questions being asked by agnostics, nones, and atheists, the audience for his popular website, *StrangeNotions.com*, where Catholics and atheists dialogue. With references to Catholic thinkers such as G. K. Chesterton, Ven. Fulton Sheen, St. Teresa of Calcutta, and Bishop Robert Barron, Vogt draws together lines of evidence to help seekers discover why they should be Catholic as an alternative. *Why I Am Catholic* serves as a compelling reproposal of the Church for former Catholics, a persuasive argument for truth and beauty to those who have become jaded and disenchanting with religion, and at the same time offers practicing Catholics a much-needed dose of confidence and clarity to affirm their faith against an increasingly skeptical culture.

A study of the hows and whys of the Catholic faith draws on scriptural passages, personal experience, and everyday life to offer a straightforward, thought-provoking response to common criticisms of Catholicism. 40,000 first printing.

This is the most up-to-date, comprehensive, and thorough defense of the Catholic Church against Protestant objections in print. This book is especially relevant as the 500th anniversary of the Protestant Reformation draws near and discussion of the arguments made against the Church during that time in history receive renewed interest. *The Case for Catholicism* answers arguments put forward by early Reformers like Luther and Calvin as well as contemporary defenders of Protestantism like Norm Geisler and R.C. Sproul. It provides a meticulous defense of the biblical and historical nature of Catholic doctrines from Scripture and church history. Finally, in both answering Protestant objections to Catholicism and in providing evidence for the Faith, *The Case for Catholicism* cites modern Protestant scholars who question Reformation assumptions and show how evidence from Scripture and church history support aspects of Catholic theology. This book is divided into four sections, with each answering a key question Christians have asked about the nature of their faith. Those key questions are: What is my authority? What is the Church? How am I saved? Who belongs to the body of Christ? *The Case for Catholicism* will become a reliable, resource for any Catholic who desires a well-researched, readable, and persuasive answer to Protestant arguments made against the Catholic faith.

The popular blogger and publisher of *Envoy* magazine offers 10 key reasons why he loves being Catholic (and you should too). Drawing heavily on poignant anecdotes from his own experience as a life-long Catholic born in 1960s, Madrid offers readers a way of looking at the Church--its members, teachings, customs, and history--from perspectives many may have never considered. Growing up Catholic during a time of great social and theological upheaval and transition, a time in which countless Catholics abandoned their religion in search of something else, Patrick Madrid learned a great deal about why people leave Catholicism and why others stay. This experience helped him gain many insights into what it is about the Catholic Church that some people reject, as well as those things that others treasure. Drawing upon Madrid's personal experiences, *Why Be Catholic?* offers a deeply personal, fact-based, rationale for why everyone should be Catholic or at least consider the Catholic Church in a new light.

"Johnson offers lucid explanations of a dizzying array of customs and beliefs." --Publishers Weekly From the Trade Paperback edition.

Today's New Atheists don't just deny God's existence (as the old atheists did) - they consider it their duty to scorn and ridicule religious belief. We don't need new answers for this aggressive modern strain of unbelief: We need a new approach. In *Answering Atheism*, Trent Horn responds with a fresh and useful resource for the God debate, based on reason, common sense, and more importantly, a charitable approach that respects atheists' sincerity and good will, making this book suitable not just for believers but for skeptics and seekers too. Meticulously researched, and street-tested in Horn's work as a pro-God apologist, it tackles all the major issues of the debate, including: -Reconciling human evil and suffering with the existence of a loving, all-powerful God -Whether the empirical sciences have eliminated the need for God, or in fact point to him -How atheists usually deny moral laws (and thus a moral lawgiver) in theory

Laudato Si' is Pope Francis' second encyclical which focuses on the theme of the environment. In fact, the Holy Father in his encyclical urges all men and women of good will, the rulers and all the powerful on earth to reflect deeply on the theme of the environment and the care of our planet. This is our common home, we must take care of it and love it - the Holy Father tells us - because its end is also ours.
