I got the Zinger running today but the Oil Injection doesnt spring back, Probably due to the Throttle Cable Sticking a bit. I was wondering how is the Oil Injection Disabled, but without taking the Parts off. I want to leave it so I can put her back to Stock for future buyers. I would just feel more comfortable mixing the Gas myself than relying on that Oil Injection System.

Praise for The 10 Rules Of Sam Walton "The 10 Rules of Sam Walton is one of those books that should be read and regularly reread by . . . everyone-business-people, students, teachers, parents, and children. It transcends the limits of a traditional book about lessons in business and makes it a book about life and about successful living!" —J. K. Knapp III, former Wal-Mart store manager, current manufacturer and supplier to Wal-Mart As founder of Wal-Mart and its many successful divisions, Sam Walton reinvented the retailing industry through his singularity of focus, high expectations, and never-say-die attitude. During his successful career, Sam Walton developed a list of what he considered the most important rules for entrepreneurial success. As far as he was concerned, there were ten key result areas that he considered pivotal to his own success. Now, in The 10 Rules of Sam Walton, author and former Wal-Mart employee Michael Bergdahl reveals these rules-and the stories behind them-to help you achieve success in both your professional and personal lives. Straightforward and to the point, this book offers valuable lessons that Walton himself followed, and taught, throughout his lifetime-from Rule #1: "Be passionately committed to achieving success" to Rule # 10: "Be different and challenge the status quo." Whether you're an entrepreneur or an hourly paid employee, The 10 Rules of Sam Walton will provide you with a blueprint for success that has proven itself time and again.

The one job that even the best mechanics avoid is wiring. Those worries are now over with help from the revised edition of "Advanced Custom Motorcycle Wiring." This book uses Chapter One to cover the basics of DC electricity and Chapter Two to explain batteries, starters, and alternators. It goes on to cover the schematics and factory harnesses for both early and late-model Harley-Davidsons. Jeff Zielinski, owner of NAMZ Custom Cycle Products and wiring harness and component designer, is the author of this revised Motorcycle Wiring book. In addition to a discussion of factory Harley-Davidson wiring harnesses, Jeff describes at length the various harness options available to a person building a custom bike. Is it better to build a harness from scratch, or install a ready-made harness kit? What's the easiest way to route all those wires through the top frame tube and the handle bars? These questions and many

more are answered in this book. Inside you will find over 350 color photos and wiring illustrations spread across 144 pages. Everything from basic chopper wiring diagrams and schematics to complex factory schematics - as well as a complete, start-to-finish harness install sequence.

This comprehensive resource of five sermons with complete worship services provides a solid, thematically integrated worship and preaching program for Advent and Christmas Eve. It celebrates the deep songs of faith that result from personal encounters with Jesus Christ. The four Advent messages examine biblical personalities, revealing in their experiences real struggles as well as profound joy. You'll explore how Zechariah wrestled to believe what the angel told him concerning the birth of his son; how the prophets searched for God's Word of hope in times of personal and social ferment; how Mary was willing to sacrifice her life for God's purpose; and how the birth of Jesus, heralded by the angels and confirmed by the shepherds, combined fear and joy with divine music. In the final sermon (for Christmas Eve), Oliver links those accounts with our contemporary lives by asking what our personal response will be to the birth of the Savior. Will we allow a song of faith to arise in our lives, in our families, churches, and community? Illustrated with poignant stories and anecdotes, the sermons in "Songs For A Savior" invite us to hear again the truly good news -- that our song of faith is not so much what we create for God, as how we respond to meeting the Savior and receiving God's gift of salvation through Jesus. "Songs For A Savior" comes from the heart of one who knows the Savior. Oliver offers these worship resources from his years of helping persons discover the Savior. The liturgies develop a theme for each Sunday, and the sermons weave biblical truths into the complexities of our modern lives, enabling new insights and personal convictions. Congregations experiencing Songs For A Savior will grow in their commitment to love and serve the Savior!" William R. Harvey Pastor Emeritus, Church of the Savior Canton, Ohio David M. Oliver holds an M.Div. degree from Duke University Divinity School and a D.Min. degree in Spiritual Formation from Asbury Theological Seminary. Currently the pastor of First United Methodist Church in Dover, Ohio, Oliver has served churches in Ohio since 1980, and has participated in the Academy for Preaching. In addition, he is an adjunct professor at Malone College in Canton, Ohio, teaching in the field of spiritual growth and worship. He is the author of "Gifts We Bring To Honor The King" (CSS).
